The AKR issued a Biological Opinion on September 7, 2018, which concluded that ONR's Arctic Research Activities and NMFS's issuance of an IHA for those activities are not likely to jeopardize the continued existence of the Beringia DPS bearded seal or Arctic ringed seal or adversely modify any designated critical habitat.

Authorization

As a result of these determinations, NMFS has issued an IHA to the U.S. Navy's ONR for the Arctic Research Activities in the Beaufort and Chukchi Seas from September 20, 2018, through September 19, 2019, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.
