

sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <http://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Consistent with the requirements of Executive Order (E.O.) 13771, Reducing Regulation and Controlling Regulatory Costs, and E.O. 13777, Enforcing the Regulatory Reform Agenda, TSA is also requesting comments on the extent to which this request for information could be modified to reduce the burden on respondents.

Information Collection Requirement

OMB Control Number 1652-0058; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery. This information collection provides a means to gather qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery.

From the TSA perspective, qualitative customer and stakeholder feedback provides useful insights on perceptions and opinions. Unlike the results of statistical surveys, which yield quantitative results that can be generalized to the population of study, this qualitative feedback provides insights into customer or stakeholder perceptions, experiences, and expectations regarding TSA products or services. Such feedback also provides TSA with an early warning of issues with service, and focuses attention on areas where improvement is needed regarding communication, training, or changes in operations that might improve delivery of products or services. These collections allow for ongoing, collaborative, and actionable communications between the Agency

and its customers and stakeholders. They also allow feedback to contribute directly to the improvement of program management. The solicitation of feedback targets areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses are assessed to plan and inform efforts to improve or maintain the quality of service offered by TSA. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary.
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government.
- The collections are noncontroversial and do not raise issues of concern to other Federal agencies.
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future.
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, or other matters that are commonly considered private.

The aggregate burden estimate is based on a review of past behavior of participating program offices and several individual office estimates. The likely respondents to this proposed information request are State, local, or tribal government and law enforcement; traveling public; individuals and households; and businesses and organizations. TSA estimates an average of 10 annual surveys with approximately 94,100 responses total. TSA further estimates a frequency of one response per request with an average response time of 10 to 30 minutes resulting in an estimated annual hour burden of 13,317 hours. TSA will provide more refined individual estimates of burden in its subsequent generic information collection applications.

SUPPLEMENTARY INFORMATION:

Reason for Changes

USCIS is permitted by regulations to waive certain fees provided the party requesting the benefit is unable to pay the prescribed fee. The proposed revision would reduce the evidence required for Form I–912 to only a person's household income and no longer require proof of whether or not an individual receives a means-tested benefit. USCIS policy since 2011 has been to permit a fee waiver where an applicant received a means-tested benefit, even for a short period of time. USCIS has found that the various income levels used in states to grant a means-tested benefit result in inconsistent income levels being used to determine eligibility for a fee waiver. Therefore, the revised form will not permit a fee waiver based on receipt of a means-tested benefit, but will retain the poverty-guideline threshold and financial hardship criteria. If USCIS decides to proceed with the form revision after considering public comments, USCIS will rescind Policy Memorandum, PM–602–0011.1, *Fee Waiver Guidelines as Established by the Final Rule of the USCIS Fee Schedule; Revisions to Adjudicator's Field Manual (AFM) Chapter 10.9*, AFM Update AD11–26 (Mar. 13, 2011) and issue new guidance on the documentation acceptable for individuals to present to demonstrate that they are unable to pay a fee when requesting a fee waiver. The applications and petitions that are eligible for a fee waiver are provided in 8 CFR 103.7(c)(3) and will not be changed by this form and policy change.

Comments

You may access the information collection instrument with instructions, or additional information by visiting the Federal eRulemaking Portal site at <http://www.regulations.gov> and enter USCIS–2010–0008 in the search box. Regardless of the method used for submitting comments or material, all submissions will be posted, without

change, to the Federal eRulemaking Portal at <http://www.regulations.gov>, and will include any personal information you provide. Therefore, submitting this information makes it public. You may wish to consider limiting the amount of personal information that you provide in any voluntary submission you make to DHS. DHS may withhold information provided in comments from public viewing that it determines may impact the privacy of an individual or is offensive. For additional information, please read the Privacy Act notice that is available via the link in the footer of <http://www.regulations.gov>.

Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

- (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

- (1) *Type of Information Collection:* Revision of a Currently Approved Collection.
- (2) *Title of the Form/Collection:* Request for Fee Waiver.
- (3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–912; USCIS.
- (4) *Affected public who will be asked or required to respond, as well as a brief abstract:* *Primary:* Individuals or households. USCIS uses the data collected on this form to verify that the applicant is unable to pay for the immigration benefit being requested. USCIS will consider waiving a fee for an application or petition when the applicant or petitioner clearly demonstrates that he or she is unable to pay the fee. Form I–912 standardizes the collection and analysis of statements and supporting documentation provided

by the applicant with the fee waiver request. Form I–912 also streamlines and expedites USCIS's review, approval, or denial of the fee waiver request by clearly laying out the most salient data and evidence necessary for the determination of inability to pay. Officers evaluate all factors, circumstances, and evidence supplied in support of a fee waiver request when making a final determination. Each case is unique and is considered on its own merits. If the fee waiver is granted, the application will be processed. If the fee waiver is not granted, USCIS will notify the applicant and instruct him or her to file a new application with the appropriate fee.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection I–912 is 350,000 and the estimated hour burden per response is 1.17 hours; for the information collection DACA Exemptions the estimated total number of respondents is 108 and the estimated hour burden per response is 1.17 hours; for the information collection 8 CFR 103.7(d) Director's exception request the estimated total number of respondents is 20 and the estimated hour burden per response is 1.17 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 409,650 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is \$1,312,980.
