

proposed East Smoky Panel Project Area is located approximately one-half mile directly east of Panel A and, in the northern portion, adjacent to Panel B. The BLM prepared a supplemental EIS for mining of Panels B and C, addressing selenium and endangered species issues, in 2002; a subsequent ROD approved the mining of Panels B and C. The BLM and USFS approved the mining of Panels F and G in 2008 and a subsequent Mine Plan modification in 2015.

The Proposed Action would consist of mining the East Smoky Panel as outlined in the Draft EIS. The Draft EIS fully evaluates Alternatives to the Proposed Action, including a No Action Alternative, and addresses issues identified during scoping.

The BLM and USFS will make separate but coordinated decisions related to the proposed Project. The BLM will either approve, approve with modifications, or deny the M&RP; and recommend whether to modify lease IDI-015259. In addition, the BLM will decide whether to approve a modification to the existing B-Panel Mine Plan. The BLM will base its decisions on public and agency input on the Draft EIS, the Final EIS, and any recommendations the USFS may have regarding surface management of leased National Forest System lands. The USFS will make recommendations to the BLM concerning surface management and mitigation on leased lands within the CTNF and will issue decisions on SUAs for off-lease activities. SUAs from the USFS would be necessary for any off-lease disturbances/structures located within the CTNF and associated with the Project. A Forest Plan amendment by the USFS would also be necessary as outlined in the Draft EIS.

On April 3, 2015, the **Federal Register** published a Notice of Intent to prepare this EIS (80 FR 18250), initiating a 30-day public scoping period for the Proposed Action during which the BLM accepted written comments. The scoping process identified concerns involving impacts to water resources and watersheds from potentially elevated levels of selenium; potential effects and/or cumulative effects of the Project regarding air quality, human health and safety, socioeconomics, wildlife, reclamation and financial assurance; and mitigation and monitoring of mine operations.

To facilitate understanding and comments on the Draft EIS, the BLM has planned public meetings for Afton, Wyoming, and Pocatello, Idaho. Meetings will be open-house style, with displays explaining the Project and a forum for commenting on the Project.

The BLM will announce dates, times, and locations of the public scoping meetings in mailings and local media at least 15 days in advance.

Stakeholders, interested parties and members of the public should submit written and electronic comments regarding the Draft EIS no later than 90 days after the Environmental Protection Agency publishes its notice of availability of the Draft EIS in the **Federal Register**. To assist the BLM and the USFS in identifying issues and concerns related to this project, comments should be as specific as possible. The portion of the proposed project related to special use authorizations for off-lease activities are subject to the USFS objection process. Due to the need for a Forest Plan amendment, this proposed project is subject to the predecisional administrative review process pursuant to 36 CFR part 218 subparts A and B and 36 CFR part 219 subpart B. Only those who provide comment during this comment period or who have previously submitted specific written comments on the Proposed Action, either during scoping or other designated opportunity for public comment, will be eligible as objectors (36 CFR 218.5(a) and 219.53(a)). BLM appeal procedures found in 43 CFR part 4, subpart E apply to the portion of the Project related to the Federal mineral lease(s).

Before including your phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

BILLING CODE 4310-GG-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-609 and 731-TA-1421 (Preliminary)]

Steel Trailer Wheels From China

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of steel trailer wheels from China that are alleged to be sold in the United States at less than fair value (“LTFV”) and to be subsidized by the government of China.^{2,3}

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission’s rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission’s rules, upon notice from the U.S. Department of Commerce (“Commerce”) of affirmative preliminary determinations in the investigations under sections 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under sections 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

¹ The record is defined in sec. 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

³ Commissioner Meredith M. Broadbent did not participate in the determinations.

Background

On August 8, 2018, Dexstar Wheel, Elkhart, Indiana, filed a petition with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of subsidized imports of steel trailer wheels from China and LTFV imports of steel trailer wheels from China. Accordingly, effective August 8, 2018, the Commission, pursuant to sections 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)), instituted countervailing duty investigation No. 701-TA-609 and antidumping duty investigation No. 731-TA-1421 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of August 15, 2018 (83 FR 40551). The conference was held in Washington, DC, on August 29, 2018, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to sections 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on September 24, 2018. The views of the Commission are contained in USITC Publication 4830 (October 2018), entitled *Steel Trailer Wheels from China: Investigation Nos. 701-TA-609 and 731-TA-1421 (Preliminary)*.

By order of the Commission.

Issued: September 24, 2018.

Lisa Barton,

Secretary to the Commission.

BILLING CODE P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-344 (Fourth Review)]

Tapered Roller Bearings From China

Determination

On the basis of the record¹ developed in the subject five-year review, the United States International Trade Commission ("Commission")

determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the antidumping duty order on tapered roller bearings from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission, pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)), instituted this review on July 3, 2017 (82 FR 30898) and determined on October 6, 2017 that it would conduct a full review (82 FR 48527, October 18, 2017). Notice of the scheduling of the Commission's review and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on February 26, 2018 (83 FR 8297). The hearing was held in Washington, DC, on July 31, 2018, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made this determination pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determination in this review on September 24, 2018. The views of the Commission are contained in USITC Publication 4824 (September 2018), entitled *Tapered Roller Bearings from China: Investigation No. 731-TA-344 (Fourth Review)*.

By order of the Commission.

Issued: September 24, 2018.

Lisa Barton,

Secretary to the Commission.
