Title of Collection: Case Service Report (RSA-911).

OMB Control Number: 1820-0508.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 78.

Total Estimated Number of Annual Burden Hours: 8,112.

Abstract: The RSA-911 is used to collect individual level data on Vocational Rehabilitation (VR) program participants on a quarterly basis. The data collected in this report are mandated by section 101(a)(10) and 607 of the Rehabilitation Act of 1973 (Act), as amended by title IV of the Workforce Innovation and Opportunity Act (WIOA) and section 116(d) of WIOA. In addition, RSA uses data reported through this data collection to support its other responsibilities under the Act. Section 14(a) of the Act calls for the evaluation of programs authorized under the Act, as well as an assessment of the programs' effectiveness in relation to cost. Many of these evaluation studies have utilized RSA-911 data. RSA also uses data captured through the RSA-911 during the conduct of both the annual review and periodic onsite monitoring of VR agencies required by section 107 of the Act to examine the effectiveness of program performance.

Other important management activities, such as the provision of technical assistance, program planning, and budget preparation and development, are greatly enhanced through the use of RSA-911 data. In addition, RSA uses RSA-911 data in the exchange of data under a data sharing agreement with the Social Security Administration as required by section 131 of the Act. Finally, the RSA-911 is considered to be one of the most robust databases in describing the demographics of the disabled population in the country and as such is used widely in researchers' disability-related analyses and reports.

The revisions to this instrument include the removal of duplicative data

elements as well as those not specifically required by statute or used for statutorily required activities. RSA is proposing to remove 66 elements from the current collection. RSA proposed the addition of 15 elements, 7 of which are related to adding a new service to track VR participant participation in Apprenticeships. RSA is also adding several elements by request of the VR agencies: Date of Initial IPE, Date of IPE Extension, and Date all Pre-Employment Transition Services Were Discontinued. These changes yield a net decrease in 251,000 burden hours in data collection and 1,488 burden hours in data reporting nationally.

Dated: September 25, 2018.

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.
