Record of Decision for the Final Environmental Impact Statement for the Na Pua Makani Wind Energy Project, Oahu, HI

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; record of decision.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a record of decision

(ROD) for proposed issuance of an Endangered Species Act (ESA) permit for the Na Pua Makani Wind Energy Project (project) and habitat conservation plan (HCP). The ROD documents the Service's decision to issue an incidental take permit (ITP) to Na Pua Makani Power Partners, LLC (applicant). As summarized in the ROD, the Service has selected Alternative 2a—the Modified Proposed Action, which includes implementation of the HCP and issuance of the ITP authorizing incidental take of one threatened and six endangered species listed under the ESA that may occur as a result of construction and operation of the project over a 21-year period.

ADDRESSES: You may obtain copies of the ROD and other documents associated with the decision by the following methods.

- *Internet:* Documents may be viewed and downloaded on the internet at <http://www.fws.gov/pacificislands/>.

- *U.S. Mail:* You may obtain a CD-ROM with electronic copies of these documents if you make a request within 30 days after the date of publication of this notice by writing to Mary Abrams, Field Supervisor, U.S. Fish and Wildlife Service, Pacific Islands Fish and Wildlife Office, 300 Ala Moana Boulevard, Room 3-122, Honolulu, HI 96850.

- *Telephone:* Call 808-792-9400 during regular business hours.

FOR FURTHER INFORMATION CONTACT: Mr. Aaron Nadig (Deputy Field Supervisor), by telephone at 808-792-9400, by Federal Relay Service at 800-877-8339, or by mail to the U.S. Fish and Wildlife Service (see **ADDRESSES**).

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a record of decision (ROD) for proposed issuance of an Endangered Species Act (ESA) section 10(a)(1)(B) permit for the Na Pua Makani Wind Energy Project (project) and habitat conservation plan (HCP). The ROD documents the Service's decision to issue an incidental take permit (ITP) to Na Pua Makani Power Partners, LLC (applicant). As summarized in the ROD, the Service has selected Alternative 2a—the Modified Proposed Action (described below), which includes implementation of the HCP and issuance of the ITP authorizing incidental take of one threatened and six endangered species listed under the ESA that may occur as a result of construction and operation of the project over a 21-year period.

We are advising the public of the availability of the ROD, developed in compliance with the agency decision-

making requirements of the National Environmental Policy Act of 1969, as amended (NEPA), as well as the final HCP as submitted by the applicant. All alternatives have been described in detail, evaluated, and analyzed in our final EIS (FEIS) and supplemental EIS (SEIS). Our notice of availability of the FEIS and HCP was published in the **Federal Register** on July 12, 2016 (81 FR 45174).

The Council of Environmental Quality regulations require agencies to prepare supplements to either draft or final EISs if there are substantial changes in the proposed action that are relevant to environmental concerns or there are significant new circumstances or information relevant to environmental concerns that bear on the proposed action or its impacts; SEISs may also be prepared if the lead agency determines that the purpose of NEPA will be furthered by doing so. After reviewing comments received after issuance of the Draft EIS (DEIS), the Service worked with the applicant to develop a modified action to address some of the comments received. Accordingly, the Service determined that publishing an SEIS and providing an additional opportunity for public review on Alternative 2a would further the purposes of NEPA and the ESA. The SEIS and HCP were noticed in the **Federal Register** on November 17, 2016 (81 FR 81151).

Background

Na Pua Makani Power Partners proposes to construct and operate the project near the town of Kahuku in the Koolauloa District of the City and County of Honolulu on the Island of Oahu, Hawaii. The project would consist of up to 9 wind turbine generators (WTGs) with a net generating capacity of up to approximately 25 megawatts (MW), located within a project site of approximately 707 acres. The site includes portions of two parcels leased from the Hawaii Department of Land and Natural Resources (DLNR), State-owned access areas, and privately owned lands. The site is located almost entirely within the State agricultural land use district.

Na Pua Makani Power Partners applied to the Service for an ITP under ESA section 10(a)(1)(B). The ITP is for a 21-year permit term and authorizes take of the threatened Newell's shearwater (*Puffinus newelli*), and the endangered Hawaiian stilt (*Himantopus mexicanus knudseni*), Hawaiian coot (*Fulica americana alai*), Hawaiian moorhen (*Gallinula chloropus sandvicensis*), Hawaiian duck (*Anas wyvilliana*), Hawaiian goose (*Branta*
