[Docket No. CP18-534-000]

#### Northern Natural Gas Company; Notice of Schedule for Environmental Review of the Northern Lights 2019 Expansion and Rochester Projects

On July 27, 2018, Northern Natural Gas Company (Northern) filed an application in Docket No. CP18-534-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposal has two major components, known as the Northern Lights 2019 Expansion Project and the Rochester Project, which together would provide approximately 138,504 dekatherms per day of upstream firm natural gas transportation service to serve increased markets for industrial, commercial, and residential uses.

On August 10, 2018, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the projects. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the projects.

#### Schedule for Environmental Review

Issuance of EA November 21, 2018  
90-day Federal Authorization Decision  
Deadline February 19, 2019

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

#### Project Description

The projects consist of new pipeline and compression facilities, all in the state of Minnesota. The Rochester Project component includes 12.6 miles
