

Combined License, as described in the licensee's request dated April 27, 2018, as supplemented August 13, 2018. This exemption is related to, and necessary for the granting of License Amendment No. 145 (Unit 3) and 144, which is being issued concurrently with this exemption.

3. As explained in Section 5.0 of the NRC staff's Safety Evaluation (ADAMS Accession Number ML18247A407), this exemption meets the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(9). Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment needs to be prepared in connection with the issuance of the exemption.

4. This exemption is effective as of the date of its issuance.

III. License Amendment Request

By letter dated April 27, 2018, designated License Amendment Request (LAR) 18-015, and supplemented by letter dated August 13, 2018 (ADAMS Accession Nos. ML18117A464 and ML18225A291, respectively), the licensee requested that the NRC amend the COLs for VEGP, Units 3 and 4, COLs NPF-91 and NPF-92. The proposed amendment is described in Section I of this **Federal Register** notice.

The Commission has determined for these amendments that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR chapter I, which are set forth in the license amendment.

A notice of consideration of issuance of amendment to facility operating license or COL, as applicable, proposed no significant hazards consideration determination, and opportunity for a hearing in connection with these actions, was published in the **Federal Register** on June 19, 2018 (83 FR 28463). No comments were received during the 30-day comment period.

The Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments.

IV. Conclusion

Using the reasons set forth in the combined safety evaluation, the staff granted the exemptions and issued the amendments that SNC requested by

letter dated April 27, 2018, supplemented by letter dated August 13, 2018 (ADAMS Accession Nos. ML18117A464 and ML18225A291, respectively). The exemptions and amendments were issued to the licensee on October 4, 2018, as part of a combined package (ADAMS Accession No. ML18247A399).
