may choose to include letters of support (no more than three) describing the nominee's qualifications and interest in serving on the Committee. The intent is to select new members from the nominees; however, NOAA retains the discretion to appoint, subject to the appropriate procedures, individuals to the Committee who were not nominated through the process outlined in this **Federal Register** notice if it deems it is necessary to achieve the desired balance. After the membership selection process is complete, applicants who are selected to serve on the Committee must complete a security clearance through NOAA. Once selected, Committee members' names will be posted at: <http://marineprotectedareas.noaa.gov/fac/>. The full text of the Committee charter and its current membership can be viewed at the Agency's web page at <http://marineprotectedareas.noaa.gov>.

These products address: Sustaining MPA Benefits in a Changing Ocean; Factors Influencing Resilience in MPAs (a Supplementary Report); and, revisions and updates to the MPA Center's existing Cultural Heritage Resources Tool Kit. Public comment will be accepted during the meeting teleconference from 3:10–3:20 p.m. Eastern Time (12:10–12:20 p.m. Pacific Time). SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Application for Temporary Food Establishment, DD Form 2970; OMB Control Number 0702–0132.

Needs and Uses: The information collection requirement is necessary for the installation Preventive Medicine or Public Health Activity to evaluate a food vendor's ability to prepare and dispense safe food on the installation. The form, submitted one time, by a food vendor

requesting to operate a food establishment on a military installation, characterizes the types of foods, daily volume of food, supporting food equipment, and sanitary controls.

Approval to operate the food establishment is determined by the installation's medical authority; the Preventive Medicine or Public Health Activity conducts an operational assessment based on the food safety criteria prescribed in the Tri-Service Food Code (TB MED 530/NAVMED P-5010-1/AFMAN 48-147_IP). Food vendors who are deemed inadequately prepared to provide safe food service are disapproved for operating on the installation.

Affected Public: Business or other for profit; Not-for-profit institutions.

Annual Burden Hours: 22.75.

Number of Respondents: 91.

Responses per Respondent: 1.

Annual Responses: 91.

Average Burden per Response: 15 minutes.

Frequency: On occasion.

Respondents are food vendors requesting to operate a business on a military installation or solicited by an installation command or military unit through the Army and Air Force Exchange Service (AAFES), Navy Exchange (NEX), Marine Corps Exchange (MCX), Family Morale, Welfare and Recreation (FMWR), or other sponsoring entity to operate a food establishment on the military installation or Department of Defense site. If the form is not completed during the application process, the Preventive Medicine assessment can only be conducted once the operation is set up on the installation. A pre-operational inspection is conducted before the facility is authorized to initiate service to the installation. Critical food safety violation found during the pre-operational inspection results in disapproval for the facility to operate. All critical violations must be corrected in order to gain operational approval; the installation command incurs the risk of a foodborne illness outbreak if a non-compliant food establishment is authorized to operate. The vendor's application to operate is retained on file with Preventive Medicine and does not need to be resubmitted by vendors whose services are intermittent throughout the year unless the scope of the operation has changed.
