AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before December 28, 2018.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the internet at prcomments@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Dr. Vernon R. (Bob) Leeworthy, (301) 713–7261 or Bob.Leeworthy@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

NOAA is sponsoring a class project at the Bren School of Management & Science at the University of California, Santa Barbara to estimate the market and non-market economic values associated with the reduction in risk of whale strikes by different scenarios of changes in traffic lanes and/or vessel speeds for major commercial vessels operating in the region of southern California where the Channel Islands National Marine Sanctuary is located.

The required information is to conduct surveys of the for hire operations that take people out for non-consumptive recreation to watch whales or other wildlife to obtain total use by type of activity (*e.g.* whale watching, and other wildlife observation) and the spatial use by type of activity. Information will also be obtained on costs-and-earnings of the operations and demographic information on owner/captains and crews. Surveys will also be conducted of the passengers aboard the for hire operation boats to obtain their market and non-market economic use values for the reduction in the risk of whale strikes. Additional information will be obtained on importance-satisfaction ratings of key natural resource attributes, facilities and services along with demographic profiles of passengers.
