

streambank and wetland restoration actions would occur in Sater Meadows, Mud Creek, or other areas across the project area where stream channels, wetlands, or riparian areas are in a degraded condition. Actions to improve stream channels, riparian habitat, and wetlands may include: Streambank stabilization, minor channel realignment, fence reconstruction, and planting native vegetation. These actions may also include placement of instream or streambank structures such as, but not limited to, rock, large woody debris, beaver dam analogs (BDAs), and barriers to prevent unauthorized motorized travel in sensitive areas. Road-crossing improvements have been identified in the project area to improve fish passage and hydrologic connectivity, including crossings in the Round Valley Creek Little Salmon River subwatershed, the Sixmile Creek Little Salmon River subwatershed, and in the Upper Goose Creek subwatershed.

Recreation Improvements

To meet the purpose and need for the project, recreation improvements would include:

(A) Improving the existing trail system by establishing user-created (unauthorized) trails as system trails where appropriate, converting some roads to trails, and removing user-created trails that negatively impact watershed and soil health;

(B) replacing or repairing existing facilities, including restrooms and lake amenities;

(C) addressing dispersed recreation issues by enhancing sites, hardening sites, closing some sites, and/or sign installation;

(D) managing roads (including relocation), posting signage and/or considering closure orders (temporary and/or permanent) to address public safety in areas where conflicting use occurs; and

(E) improving skier experience and safety through vegetative treatments within the Brundage Mountain Resort's ski area.

More detailed information on the purpose and need for the project as well as the Proposed Action can be found on the project page of the Payette National Forest website at: <http://www.fs.usda.gov/project/?project=54029>.

Responsible Official

The Forest Supervisor of the Payette National Forest is the Responsible Official.

Nature of Decision To Be Made

The Responsible Official will decide whether or not, and in what manner, lands within the Granite Meadows project area would be treated to best meet the purpose and need. The decision will be based on a consideration of the environmental effects of implementing the proposed action or alternatives. The Responsible Official may select the proposed action, any alternative analyzed in detail, a modified proposed action or alternative, or no action. If an action alternative is selected, the Responsible Official will determine what design features, mitigation measures and monitoring requirements are included in the decision.

Scoping Process

This notice of intent initiates the scoping process, which helps guide the development of the environmental impact statement. It is important that reviewers provide their comments at such times and in such a manner that they are useful to the Agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this project. Comments submitted anonymously however will also be accepted and considered; however, anonymous comments will not provide the Agency with the ability to provide the respondent with subsequent information concerning the project.

Dated October 11, 2018.

Allen Rowley,

Acting Associate Deputy Chief, National Forest System.
