

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for Primary and Secondary Emissions from Basic Oxygen Furnaces (EPA ICR Number 1069.12, OMB Control Number 2060-0029), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through November 30, 2018. Public comments were previously requested, via the **Federal Register**, on June 29, 2017 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before November 30, 2018.

ADDRESSES: Submit your comments, referencing Docket ID Number HQ-OECA-2014-0037, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Abstract: The New Source Performance Standards (NSPS) for Primary Emissions from Basic Oxygen Process Furnaces (Subpart N) apply to each basic oxygen process furnace (BOPF) in an iron and steel plant that commenced construction, modification, or reconstruction after the date of proposal. These standards were merged with Standards of Performance for Secondary Emissions from Basic Oxygen Process Steelmaking Facilities (Subpart Na). Subpart Na is applicable to any top-blown BOPF, and hot metal transfer station or skimming stations used with bottom-blown or top-blown BOPF's for which construction, reconstruction, or modification commenced after January 20, 1983. In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These

notifications, reports, and records are essential in determining compliance with 40 CFR part 60, subparts N and Na.
Form Numbers: None.

Respondents/affected entities: Owners and operators of basic oxygen process furnaces at iron and steel plants.
Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart N and Na).

Estimated number of respondents: 18 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 6,280 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$690,000 (per year), which includes \$29,700 in annualized capital and/or operation & maintenance costs.

Changes in the Estimates: The increase in burden from the most recently approved ICR is due to an adjustment. Hours were added to approximate the time spent by each source each year to familiarize with the rule requirements, and the total hours were rounded to three significant digits, which resulted in a small increase in labor hours since the last renewal.

Director, Regulatory Support Division.

SUPPLEMENTARY INFORMATION: On August 7, 2018, the FDIC requested comment for 60 days on a proposal to renew the information collection described below. No comments were received. The FDIC hereby gives notice of its plan to submit to OMB a request to approve the renewal of this collection, and again invites comment on this renewal.

Proposal to renew the following currently approved collection of information:

1. *Title:* Notice Regarding Assessment Credits.
OMB Number: 3064–0151.
Form Number: None.
Affected Public: FDIC-Insured Institutions.
Burden Estimate:

General Description of Collection:

Section 7(e)(3) of the Federal Deposit Insurance Act (12 U.S.C. 1817(e)(3)), as amended by the Federal Deposit Insurance Reform Act of 2005, requires that the FDIC provide by regulation an initial, one-time assessment credit to each “eligible” insured depository institution (or its successor) based on the assessment base of the institution as of December 31, 1996, as compared to the combined aggregate assessment base of all eligible institutions as of that date, taking into account such other factors as the FDIC Board of Directors determines to be appropriate. The one-time credits must, with certain exceptions, be applied by the FDIC to the maximum extent allowed by law to the assessments imposed on such institution that become due for assessment periods beginning after the effective date of the one-time credit regulations until such time as the credit

is exhausted. For assessments that become due for assessment periods beginning in fiscal years 2008, 2009, and 2010 the FDI Act provides that credits may not be applied to more than 90 percent of an institution’s assessment.

FDIC-insured institutions must notify the FDIC if their one-time assessment credit is transferred, *e.g.*, through a sale of the credits or through a merger, so that the FDIC can accurately track such transfers, apply available credits appropriately against institutions’ deposit insurance assessments, and determine an institution’s 1996 assessment base if the transaction involved both the base and the credit amount. The need for credit transfer information will expire when the credit pool has been exhausted.

There is no change in the method or substance of the collection and the burden remains unchanged from the

previous Paperwork Reduction Act submission.

Request for Comment

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
