SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

1. *Type of Information Collection* (check justification or form 83): Extension of a currently approved collection.

2. *The Title of the Form/Collection:* Leased/Charter/Contract Personnel Expedited Clearance Request.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form number (if applicable): USM-271.

Component: U.S. Marshals Service, U.S. Department of Justice.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:*

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Foreign Labor Certification Quarterly Activity Report, information collection. Under the foreign labor certification programs administered by ETA, State Workforce Agencies (SWAs) are funded through annually reimbursable grants. These grants fund certain activities that support the processing of applications for temporary labor certification filed by U.S. employers in order to hire foreign workers in the H-2B or H-2A visa categories to perform nonagricultural or agricultural services or labor. Under the grant agreements, SWAs must review and transmit, through the intrastate and interstate systems, job orders submitted

by employers in order to recruit U.S. workers prior to filling the job openings with foreign workers.

In order to monitor the administration of foreign labor certification activities by the SWAs effectively, the Department requires SWAs to report their workloads related to these activities on a quarterly basis. This collection of information is conducted through Form ETA-9127, *Foreign Labor Certification Quarterly Activity Report*. This report is critical for ensuring accountability and for future program management, including budget and workload management. This information collection has been classified as a revision, because of the proposed (1) elimination of a question referencing union contacts made by the SWAs; (2) elimination of a question located in both the H-2A and H-2B sections that prompts SWAs to list the most common deficiencies on the job order; and (3) modification of the Form ETA-9127 instructions in order to promote clarity as a result of some confusion expressed by SWAs. Immigration and Nationality Act section 218 authorizes this information collection. See 8 U.S.C. 1188.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. DOL obtains OMB approval for this information collection under Control Number 1205-0457. The DOL notes that existing information collection requirements submitted to OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on June 21, 2018 (83 FR 28866).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0457. OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
