OMB Control Number: 3060–1215.

Title: Use of Spectrum Bands Above 24 GHz for Mobile Radio Services.

Form Number: N/A.

Type of Review: Revision of an existing collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local and tribal government.

Number of Respondents: 280 respondents; 280 responses.

Estimated Time per Response: .5–10 hours.

Frequency of Response: On occasion reporting requirement; third party disclosure requirement; upon commencement of service, or within 3 years of effective date of rules; and at end of license term, or 2024 for incumbent licensees.

Obligation to Respond: Statutory authority for this collection are contained in sections 1, 2, 3, 4, 5, 7, 10, 201, 225, 227, 301, 302, 302a, 303, 304, 307, 309, 310, 316, 319, 332, and 336 of the Communications Act of 1934, 47 U.S.C. 151, 152, 153, 154, 155, 157, 160, 201, 225, 227, 301, 302, 302a, 303, 304, 307, 309, 310, 316, 319, 332, 336, Section 706 of the Telecommunications Act of 1996, as amended, 47 U.S.C. 1302.

Total Annual Burden: 615 hours.

Total Annual Cost: \$450,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: In this collection, the Commission adopted new licensing, service, and technical rules under Part 30 of the Commission's Rules for the 24.25–24.45 GHz and 24.75–25.25 GHz bands (collectively, 24 GHz band), the 27.5–28.35 GHz band (28 GHz band), the 38.6–40 GHz band (39 GHz band), the 37–38.6 GHz band (37 GHz band), the 47.2–48.2 GHz band (47 GHz band). Therefore, the Commission expanded the scope of the rules to include additional bands. In turn, since the rules now apply in additional bands, the number of respondents, the annual number of responses, annual burden hours and annual costs will increase for this collection. The Commission also authorizes unlicensed use in the 64–71 GHz band under Part 15. In so doing, the Commission created a consistent framework across all of the bands that can serve as a template for additional bands in the future.

The rules adopted by the Commission, in FCC 17–152 and FCC 18–73 revise the previously approved information collection relating to

Section 25.136 of the Commission's Rules. The Commission added the 24 GHz band and the 47 GHz band (47.2–48.2 GHz) to the bands that are subject to the framework for sharing between the Upper Microwave Flexible Use Service (UMFUS) and the Fixed-Satellite Service (FSS) established in that rule. In addition, the Commission modified the sharing criteria between UMFUS and FSS to facilitate deployment of FSS earth stations in smaller markets and decrease the possibility of conflicts between UMFUS and FSS.

Section 25.136—This rule contains both a third-party coordination requirement and a filing requirement. Both requirements are necessary to ensure that Fixed Satellite Service earth stations can receive interference protection without having an undue impact on terrestrial deployment.

BILLING CODE 6712–01–P

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Information Collection Activities: Proposed Revision of Information Collection; National Survey of Unbanked and Underbanked Households; Comment Request (3064–0167)

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice and request for comment.

SUMMARY: The FDIC, as part of its obligations under the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to take this opportunity to comment on the survey collection instrument for its sixth National Survey of Unbanked and Underbanked Households (Household Survey), currently approved under OMB Control No. 3064–0167, scheduled to be conducted in partnership with the U.S. Census Bureau as a supplement to its June 2019 Current Population Survey (CPS). The survey seeks to measure and track economic inclusion among U.S. households, and to identify the factors that inhibit the participation of these households in the mainstream banking system and opportunities to expand the use of banking services among underserved consumers. The results of these ongoing surveys will help policymakers and bankers understand

the issues and challenges underserved households perceive when deciding how and where to conduct financial transactions.

DATES: Comments must be submitted on or before January 7, 2019.

ADDRESSES: Interested parties are invited to submit written comments to the FDIC by any of the following methods:

- <http://www.FDIC.gov/regulations/laws/federal/notices.html>.
- *Email:* comments@fdic.gov. Include the name and number of the collection in the subject line of the message.
- *Mail:* Manny Cabeza (202–898–3767), Counsel, MB–3007, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.
- *Hand Delivery:* Comments may be hand-delivered to the guard station at the rear of the 17th Street NW, building (located on F Street), on business days between 7:00 a.m. and 5:00 p.m.

All comments should refer to OMB control number 3064–0167. A copy of the comments may also be submitted to the OMB desk officer for the FDIC: Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Manny Cabeza, Counsel, (202) 898–3767, mcabeza@fdic.gov, MB–3007, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.

SUPPLEMENTARY INFORMATION: The FDIC is considering possible revisions to the following collection of information:

Title: National Survey of Unbanked and Underbanked Households.

OMB Number: 3064–0167.

Frequency of Response: Once.

Affected Public: U.S. Households.

Estimated Number of Respondents: 40,000.

Average time per response: 9 minutes (0.15 hours) per respondent.

Estimated Total Annual Burden: 0.15 hours × 40,000 respondents = 6,000 hours.

General Description of Collection: The FDIC recognizes that public confidence in the banking system is strengthened when banks effectively serve the broadest possible set of consumers. As a result, the agency is committed to increasing economic inclusion in the financial mainstream by ensuring that all Americans have access to safe, secure, and affordable banking services. The National Survey of Unbanked and Underbanked Households is one contribution to this end.

The National Survey of Unbanked and Underbanked Households is also a key

component of the FDIC's efforts to comply with a Congressional mandate contained in section 7 of the Federal Deposit Insurance Reform Conforming Amendments Act of 2005 ("Reform Act") (Pub. L. 109-173), which calls for the FDIC to conduct ongoing surveys "on efforts by insured depository institutions to bring those individuals and families who have rarely, if ever, held a checking account, a savings account or other type of transaction or check cashing account at an insured depository institution (hereafter in this section referred to as the 'unbanked') into the conventional finance system." Section 7 further instructs the FDIC to consider several factors in its conduct of the surveys, including: (1) "What cultural, language and identification issues as well as transaction costs appear to most prevent 'unbanked' individuals from establishing conventional accounts"; and (2) "what is a fair estimate of the size and worth of the 'unbanked' market in the United States." The National Survey of Unbanked and Underbanked Households is designed to address these factors and provide a factual basis on the proportions of unbanked households. Such a factual basis is necessary to adequately assess banks' efforts to serve these households as required by the statutory mandate. The National Survey of Unbanked and Underbanked Households is the only population-representative survey conducted at the national level that provides state-level estimates of the size and characteristics of unbanked and underbanked households for all 50 states and the District of Columbia.

The FDIC supplement collects nationally-representative data, not otherwise available, to measure and track economic inclusion, and assess the accessibility and sustainability of banking relationships. The survey identifies different banking status groups, including unbanked and underbanked consumers. In identifying underbanked consumers, the FDIC considers households that have bank accounts but also substantially rely on nonbank financial services to meet basic financial needs such as receiving income, paying bills, saving and storing money, and accessing basic consumer credit. There is an emphasis on services that are disproportionately relied on by the unbanked, and are provided by a company or firm, as opposed to those accessed informally through individuals. The survey captures the use of a range of bank and nonbank products, and other data to help assess the reasons why some households do

not make greater use of mainstream banking services.

To obtain this information, the FDIC partners with the U.S. Census Bureau, which administers the Household Survey supplement ("FDIC Supplement") to households that participate in the CPS. The supplement has been administered every other year since January 2009. The previous survey questionnaires and survey results can be accessed through the following link: <http://www.economicinclusion.gov/surveys/>.

Consistent with the statutory mandate to conduct the surveys on an ongoing basis, the FDIC already has in place arrangements for conducting the sixth Household Survey as a supplement to the June 2019 CPS.

However, prior to finalizing the next survey questionnaire, the FDIC seeks to solicit public comment on whether changes to the existing instrument are desirable and, if so, to what extent. It should be noted that, as a supplement of the CPS survey, the Household Survey needs to adhere to specific parameters that include limits in the length and sensitivity of the questions that can be asked of CPS respondents. Interested members of the public may obtain a copy of the proposed survey questionnaire on the following web page: <https://www.fdic.gov/regulations/laws/federal/2018/2019-draft-household-survey-questionnaire.pdf>

Request for Comment

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.

Dated at Washington, DC, on November 1, 2018.
