Background

Pursuant to the Rural Electrification Act of 1936, as amended (7 U.S.C. 901 *et seq.*), the Rural Utilities Service (RUS) is amending Title 7 CFR Chapter XVII, Part 1728, Electric Standards and Specifications for Materials and Construction, by making changes to 7 CFR 1728.97, *Incorporation by reference of electric standards and specifications, RUS Bulletin 1728F-806 (D-806), "Specifications and Drawings for Underground Electric Distribution"* (incorporation approved for 7 CFR

1728.98). These changes are necessary in order to digitize RUS accounting, clarify RUS requirements, update current standards and practices, and improve customer service.

RUS maintains a system of bulletins that contain construction standards and specifications for materials and equipment which must be complied when system facilities are constructed by RUS electric and telecommunications borrowers in accordance with the RUS loan contract. These standards and specifications contain standard construction units and material items and equipment units commonly used in RUS electric and telecommunications borrowers' systems. The bulletin listed below is incorporated by reference in 7 CFR 1728.97. The Director of the Federal Register approves the incorporations by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. A notice of any change in this material will be published in the Federal Register. Copies of this bulletin are available to the public at the following web address: <https://www.rd.usda.gov/publications/regulations-guidelines/bulletins/electric>.

The materials incorporated by reference may be inspected at the Rural Utilities Service, Stop 1520, Room 5820-S, Washington, DC 20250-1522, call (202) 720-8674. The RUS bulletin 1728F-806 (D-806) is available from the Rural Utilities Service, Room 1246 -S, U.S. Department of Agriculture, Washington, DC 20250. For information on the availability of this material, call (202) 720-8674.

The following is a summary of the changes that are included in this final rule:

1. For consistency with RUS policy and practices, the drawings are renumbered to reflect RUS other construction standards and specifications. This will allow the digitizing of accounting records.
2. To keep abreast with the industry practices and respond to the stakeholders interest, cable-in-conduit and outdoor lighting construction standard and specification are added. These practices are common industry wide but are not currently available from RUS.
3. To enforce this rule as a standard, the term "must" is replaced by "shall" throughout the rule where applicable.
4. As requested by the stakeholders, the term "borrower" is replaced by "owner" throughout the rule where applicable.
5. The high potential test is an obsolete practice and removed.

Risk-Based Capital

AGENCY: National Credit Union Administration (NCUA).

ACTION: Final rule; supplemental.

SUMMARY: The NCUA Board (Board) is amending the NCUA’s previously revised regulations regarding prompt corrective action (PCA). The final rule delays the effective date of the NCUA’s October 29, 2015 final rule regarding risk-based capital (2015 Final Rule) for one year, moving the effective date from January 1, 2019 to January 1, 2020. During the extended delay period, the NCUA’s current PCA requirements will

remain in effect. The final rule also amends the definition of a “complex” credit union adopted in the 2015 Final Rule for risk-based capital purposes by increasing the threshold level for coverage from \$100 million to \$500 million. These changes provide covered credit unions and the NCUA with additional time to prepare for the rule’s implementation, and exempt an additional 1,026 credit unions from the risk-based capital requirements of the 2015 Final Rule without subjecting the National Credit Union Share Insurance Fund (NCUSIF) to undue risk.

DATES: The effective date of the final rule published on October 29, 2015 (80 FR 66625) is delayed until January 1, 2020. In addition, the amendments to § 702.103 in this final rule are effective on January 1, 2020.
