[Docket No. DHS-2018-0042]

Next Generation First Responder (NGFR)

AGENCY: Science and Technology Directorate, Department of Homeland Security.

ACTION: 60-Day notice of information collection; new request for comment.

SUMMARY: The Department of Homeland Security (DHS), Science and Technology Directorate (S&T) Next Generation First Responder (NGFR) program seeks to develop and integrate next-generation technologies by testing and evaluating first responder technologies during integration demonstration events. During these events, first responder participants use prototype technologies in a fictional scenario—such as a missing person case, an active shooter event, or a chemical spill—and are asked to share their feedback on how the technology worked in the context of their emergency response to the scenario, including whether the technologies made them more effective, efficient or safe.

The information collected during these events will help provide insight about how to improve technologies for first responders and will help DHS define whether or not the event was successful. Additionally, the feedback and evaluation DHS receives will be used in knowledge products that will then be distributed to other state and local first responder organizations.

Updated Collision Risk Model Priors for Estimating Eagle Fatalities at Wind Energy Facilities

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Reopening of the comment period.

SUMMARY: The U.S. Fish and Wildlife Service (Service) uses a collision risk model (CRM) to predict the number of golden and bald eagles that may be killed at new wind facilities. The model incorporates existing information on eagle exposure and collision probability in the form of prior distributions (priors). The Service has updated the priors for both species of eagle and, on June 21 of this year, announced the availability of a report of the analysis conducted to generate the new priors (83 FR 28858). The notice solicited public comments on how the Service should use the new bald eagle priors. Today's notice reopens the comment period for 30 days, and provides additional information requested by commenters.

DATES: To ensure consideration of written comments, they must be submitted on or before December 13, 2018.
