

any changes to the design, safety limits, or safety analysis assumptions associated with the cask system and would not create any new accident precursors. The exemption also relates solely to training requirements. Therefore this exemption is categorically excluded from further analysis under 10 CFR 51.22(c)(25)(vi)(E).

Pursuant to 10 CFR 51.22(c), no environmental impact statement or environmental assessment needs to be prepared in connection with the approval of this exemption request.

IV. Conclusions

Based on the above considerations, the NRC staff has determined, pursuant to 10 CFR 72.7, that this exemption is authorized by law, will not endanger life or property or the common defense and security, and is otherwise in the public interest. Therefore, the Commission hereby grants *ZionSolutions* an exemption from 10 CFR 72.212(a)(2), 72.212(b)(3), 72.212(b)(5)(i), 72.212(b)(11), and 72.214, which state that the licensee shall comply with the terms, conditions, and specifications of the CoC, only with regard to the requirements of CoC No. 1031, Amendment No. 6, Appendix A, Technical Specifications and Design Features for the MAGNASTOR® System, Section 5.7, "Training Program." The exemption only exempts *ZionSolutions* from the requirement to develop training modules under the SAT program that include comprehensive instructions for the operation and maintenance of the ISFSI SSCs that are not important to safety. The SAT training requirements are still applicable to all important to safety components, as required by the CoC.

The exemption is effective upon issuance.
