C. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy.

II. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the FMCSRs for a five-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the five-year period. FMCSA grants exemptions from the FMCSRs for a two-year period to align with the maximum duration of a driver’s medical certification.

The four individuals listed in this notice have requested an exemption from 49 CFR 391.41(b)(4). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

The physical qualification standard found in 49 CFR 391.41(b)(4) states that a person is physically qualified to drive a CMV if that person has no current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, or congestive cardiac failure.

In addition to the regulations, FMCSA has published advisory criteria¹ to assist Medical Examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce. [49 CFR part 391, APPENDIX A TO PART 391—MEDICAL ADVISORY CRITERIA, section D. *Cardiovascular*: § 391.41(b)(4), paragraph 4.] The advisory criteria states that ICDs are disqualifying due to risk of syncope.

III. Qualifications of Applicants

Herman L. Bolton

Mr. Bolton is a Class A CDL holder in Louisiana. A June 29, 2018 report from Mr. Bolton’s cardiologist states his ICD was implanted August 25, 2017, and that Mr. Bolton reports no complaints of syncope.

Robert A. Crawley

Mr. Crawley is a commercial motor vehicle driver in Maryland. A September 13, 2018, report from his cardiologist states his ICD was implanted August 24, 2016, and that he denies any symptoms of device malfunction, arrhythmia recurrence, palpitations, syncope, or shocks.

Paul J. Hill

Mr. Hill is a commercial motor vehicle driver in South Dakota. A September 25, 2018 letter from Mr. Hill’s electrophysiologist reports that his ICD was implanted November 27, 2013, and that he has been stable and has not had any shocks from his device.

Johnny L. Walls, Jr.

IV. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments received before the close of business on the closing date indicated in the dates section of the notice.
