

public may also have access to OCA information that the Local Emergency Planning Committee (LEPC) in whose jurisdiction the person lives or works is authorized to provide.

The final rule also authorizes and encourages state and local government officials to have access to OCA information for their official use, and to provide members of the public with read-only access to OCA sections of RMPs for sources located within the jurisdiction of the LEPC where the person lives or works and for any other stationary sources with vulnerability zones extending into the LEPC's jurisdiction.

EPA also established a Vulnerable Zone Indicator System (VZIS) that informs any person located in any state whether an address specified by that person might be within the vulnerable zone of one or more stationary sources, according to the data reported in RMPs. The VZIS is available on the internet. Members of the public who do not have access to the internet are able to obtain the same information by regular mail request to the EPA.

*General Description of Collection:*

This is a collection of information involving submission of information and various forms by contractors who desire to do business with the FDIC in connection with contract proposals submitted in response to FDIC solicitations.

In order to obtain competitive proposals and contracts from vendors interested in providing goods or services to the FDIC, the FDIC uses the Solicitation/Award request (Form 3700/55). This form is used in connection with a request for proposal and a request for price quotations.

In anticipation of a particular contract solicitation, the FDIC may first conduct market research to narrow down the list of potential contractors. This is done through a request for information (RFI). Following the RFI process, potential firms may be notified if they are to be included in the next phase of the acquisition process.

The FDIC Background Investigation Questionnaire for Contractor Personnel and Subcontractors (Form 1600/04), Background Investigation Questionnaire for Contractors (Form 1600/07), Integrity and Fitness Representations and Certifications (Form 3700/12), and Leasing Representations and Certifications (Form 3700/44) are a result of the implementation of 12 CFR part 366. The FDIC adopted 12 CFR part 366 pursuant to Section 12(f)(3) and (4)

of the Federal Deposit Insurance Act, 12 U.S.C. 1822(f)(3) and (4), and the rulemaking authority of the FDIC found at 12 U.S.C. 1819. Pursuant to those sections and consistent with the goals and purposes of titles 18 and 41 of the U.S. Code, the rule establishes the minimum standards of integrity and fitness that contractors, subcontractors, and employees of contractors and subcontractors must meet if they perform any service or function on behalf of the FDIC. This rule includes regulations governing conflicts of interest, ethical responsibility, and use of confidential information in accordance with 1822(f)(3); and the prohibitions and the submission of information in accordance with 1822(f)(4). This rule applies to a person who submits an offer to perform or performs, directly or indirectly, a contractual service or function on behalf of the FDIC.

In addition, the evaluation of an offeror's past performance under formal contracting procedures is a mandatory technical evaluation criterion in the FDIC's standard solicitation document. In support of the evaluation of the past performance criterion, the FDIC Past Performance Questionnaire (Form 3700/57) was developed to be submitted by other government agencies or commercial businesses who are doing business, or have done business, with

the contractor that the FDIC is evaluating.

The FDIC Contractor Representations and Certifications form (Form 3700/4A) must be completed by any offeror that responds to a solicitation for an award over \$100,000.

Finally, in connection with a contract proposal, the FDIC seeks a commitment from an FDIC contractor to ensure, to the maximum extent possible consistent with applicable law, the fair inclusion of minorities and women in its workforce and the workforces of its applicable subcontractors. The commitment is asserted by the FDIC Fair Inclusion of Minorities and Women form (Form 3700/59), which is a contract clause implementing Section 342(c)(2) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5452). The clause asserts the FDIC's right to request documentation from the contractor that demonstrates the contractor's good faith effort to include minorities and women in its workforce and subcontractors' workforces.

The annual burden for this information collection is estimated to be 7,830 hours. This represents an increase of 5,496 hours from the current burden estimate of 2,334 hours. This increase is not due to any new requirements imposed by the FDIC. Rather, it is due to FDIC's reassessment of the burden hours associated with the contracting

process and to better account for the burdens associated with requests for proposals and price quotations as well as RFIs.

**Request for Comment**

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
