BILLING CODE 6353–01–P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Withdrawal of the Notice of Intent To Prepare a Draft Environmental Impact Statement (DEIS) in Cooperation With the North Carolina Department of Transportation and South Carolina Department of Transportation for Extending SC 31 (Carolina Bays Parkway), in Horry County, South Carolina, To Connect to US 17, in Brunswick County, North Carolina

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice.

SUMMARY: The U.S. Army Corps of Engineers, Wilmington District, Wilmington Regulatory Division and the U.S. Army Corps of Engineers,

Charleston District, Charleston Regulatory Division (collectively COE) are issuing this notice to advise the public that a State (North Carolina Department of Transportation [NCDOT] and South Carolina Department of Transportation [SCDOT]) funded Draft Environmental Impact Statement (DEIS) will no longer be prepared by the COE, while acting as lead federal agency, for improvements to SC 31 starting near Little River, Horry County, South Carolina and running northeast to US 17, in an area between Calabash and Shallotte, Brunswick County, North Carolina. On July 6, 2017 the COE issued a Notice of Intent to prepare a DEIS for the “Carolina Bays Parkway Extension”, NCDOT Project 44604 and SCDOT Project P029554. Recent commitment of federal funds has altered various aspects of this project, including the designation of the lead federal agency. Due to these developments, the COE will no longer act in this capacity, but rather as a cooperating agency throughout the evaluation of the project. At the appropriate time, a separate notice will be issued within the **Federal Register** identifying the lead agency, describing the project, and detailing the evaluation process.

FOR FURTHER INFORMATION CONTACT:

Questions about the COE’s current role in this project can be directed to Mr. Brad Shaver, Regulatory Project Manager (Wilmington District), Wilmington Regulatory Field Office, 69 Darlington Avenue, Wilmington, NC 28403, by telephone: (910) 251–4611, or by email at Brad.E.Shaver@USACE.army.mil or Ms. Amanda Heath, Regulatory Project Manager (Charleston District), Charleston Regulatory Office, 69A Hagood Avenue, Charleston, SC 29403, by telephone: (843) 329–8025, or by email at Amanda.L.Heath@usace.army.mil.

Scott McLendon,

Chief, Regulatory Division, Wilmington District.

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Notice of Availability of the Record of Decision for the Final Missouri River Recovery Management Plan and Environmental Impact Statement

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice; availability of the Record of Decision.

SUMMARY: The U.S. Army Corps of Engineers (USACE) announces the availability of the Record of Decision (ROD) for the Final Missouri River Recovery Management Plan and Environmental Impact Statement (MRRMP–FEIS) published in the **Federal Register** on Friday, August 31, 2018. The USACE Northwestern Division Commander signed the ROD on November 20, 2018. Copies of the ROD along with the MRRMP–FEIS and other supporting documents are available for viewing on the Missouri River Recovery Program website at: <http://www.nwo.usace.army.mil/mrrp/mgmt-plan/>.

FOR FURTHER INFORMATION CONTACT:

Tiffany Vanosdall, U.S. Army Corps of Engineers at (402) 995–2695 or by email at tiffany.k.vanosdall@usace.army.mil.

SUPPLEMENTARY INFORMATION:

The USACE has developed the MRRMP–FEIS in cooperation with the U.S. Fish and Wildlife Service (USFWS). This document is the USACE Record of Decision for the MRRMP–FEIS dated August, 2018. The MRRMP–FEIS is a programmatic assessment of major federal actions necessary to avoid a finding of jeopardy for the pallid sturgeon (*Scaphirhynchus albus*), interior least tern (*Sterna antillarum*), and the Northern Great Plains piping plover (*Charadrius melodus*) caused by operation of the Missouri and Kansas River reservoir systems and operation and maintenance of the Missouri River Bank Stabilization and Navigation Project. After consultation with the USFWS, and extensive collaboration, analysis, and independent scientific review, USACE has identified Alternative 3 (Mechanical Construction Only) as the selected alternative. Alternative 3 will meet the species objectives and fulfill the purpose and need of the plan while avoiding and minimizing adverse impacts to stakeholders. Importantly, Alternative 3 would be implemented within an adaptive management framework detailed in the Science and Adaptive Management Plan (SAMP). The ROD documents why the USACE has chosen to implement Alternative 3 as described in the MRRMP–FEIS.

Brenda S. Bowen,

Army Federal Register Liaison Officer.
