Commission's Rules of Practice and Procedure (19
CFR 207.2(f)).

to the Tariff Act of 1930 ("the Act"),
that there is a reasonable indication that
an industry in the United States is
materially injured by reason of imports
of polyester textured yarn from China
and India, provided for in subheadings
5402.33.30 and 5402.33.60 of the
Harmonized Tariff Schedule of the
United States, that are alleged to be sold
in the United States at less than fair
value ("LTFV") and to be subsidized by
the governments of China and India.²

**Commencement of Final Phase
Investigations**

Pursuant to section 207.18 of the
Commission's rules, the Commission
also gives notice of the commencement
of the final phase of its investigations.
The Commission will issue a final phase
notice of scheduling, which will be
published in the **Federal Register** as
provided in section 207.21 of the
Commission's rules, upon notice from
the U.S. Department of Commerce
("Commerce") of affirmative
preliminary determinations in the
investigations under sections 703(b) or
733(b) of the Act, or, if the preliminary
determinations are negative, upon
notice of affirmative final
determinations in those investigations
under sections 705(a) or 735(a) of the
Act. Parties that filed entries of
appearance in the preliminary phase of
the investigations need not enter a
separate appearance for the final phase
of the investigations. Industrial users,
and, if the merchandise under
investigation is sold at the retail level,
representative consumer organizations
have the right to appear as parties in
Commission antidumping and
countervailing duty investigations. The
Secretary will prepare a public service
list containing the names and addresses
of all persons, or their representatives,
who are parties to the investigations.

Background

On October 18, 2018, Unifi

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. DEA-471A]

Final Adjusted Aggregate Production Quotas for Schedule I and II Controlled Substances and Assessment of Annual Needs for the List I Chemicals Ephedrine, Pseudoephedrine, and Phenylpropanolamine for 2018

AGENCY: Drug Enforcement Administration (DEA), Department of Justice (DOJ).

ACTION: Final order.

SUMMARY: This final order establishes the final adjusted 2018 aggregate production quotas for controlled substances in schedules I and II of the Controlled Substances Act (CSA) and the assessment of annual needs for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine.

DATES: This order is effective December 10, 2018.

FOR FURTHER INFORMATION CONTACT: Regulatory Drafting and Policy Support Section (DPW), Diversion Control Division, Drug Enforcement Administration, 8701 Morrisette Drive, Springfield, VA 22152, Telephone: (202) 598-6812.

SUPPLEMENTARY INFORMATION:

Legal Authority

Section 306 of the Controlled Substances Act (CSA) (21 U.S.C. 826) requires the Attorney General to establish aggregate production quotas for each basic class of controlled substances listed in schedules I and II and for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine. The Attorney General has delegated this function to the Administrator of the Drug Enforcement Administration (DEA) pursuant to 28 CFR 0.100.

Background

The DEA published the 2018 established aggregate production quotas for controlled substances in schedules I and II and the assessment of annual needs for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine in the **Federal Register** on November 8, 2017. 82 FR 51873. The DEA is committed to preventing and limiting diversion by enforcing laws and regulations regarding controlled substances and the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine, in order to meet the demand of legitimate medical, scientific, and export needs of the United States. This notice stated that the Administrator would adjust, as needed, the established aggregate production quotas in 2018 in accordance with 21 CFR 1303.13 and 21 CFR 1315.13. The 2018 proposed adjusted aggregate production quotas for controlled substances in schedules I and II and assessment of annual needs for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine were subsequently published in the **Federal Register** on August 23, 2018, (83 FR 42690) in consideration of the outlined criteria. All interested persons were invited to comment on or object to the proposed adjusted aggregate production quotas and assessment of annual needs on or before September 24, 2018.

Comments Received

The DEA received 526 comments from doctors, nurses, veterinarians, nonprofit organizations, associations,

patients, caregivers, DEA-registered entities, and non-DEA entities. The comments included concerns about drug shortages, interference with doctor-patient relationships, increase in the production of marijuana, requests for a hearing, requests for increases in specific production quotas, and comments that were outside the scope of this final order.

There were 200 commenters that expressed general concerns about the decrease to the production quotas of controlled substances and shortages of controlled substances. There were 27 commenters that expressed general concerns alleging that decreases to the aggregate production quotas interfered with doctor-patient relationships. The DEA sets aggregate production quotas in a manner to ensure that the estimated medical needs of the United States are met. In determining the aggregate production quota, the DEA does take into account the prescriptions that have been issued. The DEA does not interfere with doctor-patient relationships.

Doctors who are authorized to dispense controlled substances are responsible for adhering to the laws and regulations set forth under the CSA, which requires doctors to only write prescriptions for a legitimate medical need. The DEA is responsible for enforcing controlled substance laws and regulations. The DEA is committed to ensuring an adequate and uninterrupted supply of controlled substances in order to meet the demand of legitimate medical, scientific, and export needs of the United States. The decrease or increase in the aggregate production quota for controlled substances is based on factors set forth in 21 CFR 1303.13. In the event of a shortage, the CSA provides a mechanism under which the DEA will, in appropriate circumstances, increase quotas to address shortages. 21 U.S.C. 826(h). When DEA is notified of an alleged shortage, DEA will confer with the FDA and relevant manufacturers regarding the amount of material in physical inventory, current quota granted, and the estimated legitimate medical need, to determine whether a quota adjustment is necessary to alleviate any factually valid shortage.

Four non-DEA registered entities expressed support to increase the production quota of marijuana for research purposes. The DEA increased the production quota for marijuana based solely on increased usage projections for federally approved research projects.

Two non-DEA-registered individuals urged DEA to hold a public hearing in connection with their view that reducing quotas will not be effective in
