Federal Register

Vol. 83, No. 243

Wednesday, December 19, 2018

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents.

## NUCLEAR REGULATORY COMMISSION

### 10 CFR Part 9

[NRC–2017–0144]

RIN 3150–AK06

### Update to Fees for Search and Review of Agency Records by NRC Personnel

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Direct final rule.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is amending its regulations to revise the fees charged for search and review of agency records by NRC personnel in response to certain Freedom of Information Act (FOIA) requests. These revisions are being made to ensure the NRC recovers direct costs of these activities, as required by the FOIA.

**DATES:** This direct final rule is effective March 4, 2019, unless significant adverse comments are received by January 18, 2019. If this direct final rule is withdrawn as a result of such comments, timely notice of the withdrawal will be published in the **Federal Register**. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Comments received on this direct final rule will also be considered to be comments on a companion proposed rule published in the Proposed Rules section of this issue of the **Federal Register**.

**ADDRESSES:** You may submit comments by any of the following methods:

- **Federal Rulemaking Website:** Go to <http://www.regulations.gov> and search for Docket ID NRC–2017–0144. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov). For technical questions contact the individual listed in the **FOR FURTHER**

**INFORMATION CONTACT** section of this document.

- **Email comments to:** [Rulemaking.Comments@nrc.gov](mailto:Rulemaking.Comments@nrc.gov). If you do not receive an automatic email reply confirming receipt, then contact us at 301–415–1677.

- **Fax comments to:** Secretary, U.S. Nuclear Regulatory Commission at 301–415–1101.

- **Mail comments to:** Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, ATTN: Rulemakings and Adjudications Staff.

- **Hand deliver comments to:** 11555 Rockville Pike, Rockville, Maryland 20852, between 7:30 a.m. and 4:15 p.m. (Eastern Time) Federal workdays; telephone: 301–415–1677.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the **SUPPLEMENTARY INFORMATION** section of this document.

#### I. Obtaining Information and Submitting Comments

##### A. Obtaining Information

Please refer to Docket ID NRC–2017–0144 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- **Federal Rulemaking Website:** Go to <http://www.regulations.gov> and search for Docket ID NRC–2017–0144.

- **NRC’s Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/>

[adams.html](#). To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- **NRC’s PDR:** You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

##### B. Submitting Comments

Please include Docket ID NRC–2017–0144 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

#### II. Rulemaking Procedure

Because the NRC considers this action to be non-controversial, the NRC is using the “direct final rule procedure” for this rule. The rule will become effective on March 4, 2019. However, if the NRC receives significant adverse comments on this direct final rule by January 18, 2019, then the NRC will publish a document that withdraws this action and will subsequently address the comments received in a final rule as a response to the companion proposed rule published in the Proposed Rules section of this issue of the **Federal Register**. Absent significant modifications to the proposed revisions requiring republication, the NRC will

not initiate a second comment period on this action.

A significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, a substantive response is required when:

(a) The comment causes the NRC staff to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the NRC staff.

(2) The comment proposes a change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the NRC staff to make a change (other than editorial) to the rule.

For detailed instructions on filing comments, please see the **ADDRESSES** section of this document.

### III. Background

The FOIA provides that any person has a right to request and obtain access to federal agency records, except to the extent that any portions of those records are exempt from public disclosure. The FOIA also authorizes agencies to issue regulations specifying a schedule of fees for the processing of those requests (5 U.S.C. 552(a)(4)(A)). These fees are limited to reasonable standard charges for document search, duplication, and review, which may be charged depending on the purpose for which the records are sought and the class of requestor. The NRC's implementing FOIA regulations are found in part 9 of Title 10 of the *Code of Federal Regulations* (10 CFR). The NRC charges fees for the search and review of agency records in accordance with § 9.37, "Fees for search and review of agency records by NRC personnel," (although as specified in § 9.39, "Search and duplication provided without charge," the NRC will search for records in some instances without charge, and requests for waivers or reduction of fees can be sought as specified in § 9.41, "Requests for waiver or reduction of fees"). Consistent with Office of Management and Budget (OMB) guidelines on fee

schedules (52 FR 10012; March 27, 1987), the NRC recoups the direct costs of search and review by charging the hourly rates of the employees performing the task, plus 16 percent for fringe benefits. These OMB guidelines also provide that, where a homogenous or single class of personnel is used, agencies may establish reasonable average rates for the range of salary grades typically involved.

The NRC first established fees for search and review of agency records in 1987 (52 FR 49350; December 31, 1987), and last updated these fees in 2010 (75 FR 41368; July 16, 2010). Recently, as part of the agency's biennial review of fees performed under the Chief Financial Officers Act of 1990 (31 U.S.C. 902(a)(8)), the NRC determined that the search and review rates for agency clerical staff and for professional/managerial staff needed to be increased in order to ensure the NRC continues to recover the direct costs of these activities.

Section 9.37 paragraph (a) will be changed from a GG-7/step 6 salary rate to a GG-9/step 7 salary rate; and paragraph (b) will be changed from a GG-13/step 6 salary rate to a GG-14/step 7 salary rate.

### IV. Discussion of Changes

The FOIA authorizes agencies to issue regulations specifying a schedule of fees for processing requests from any person who requests access to federal agency records. Consistent with OMB fee schedule guidelines, the NRC recoups the costs associated with the search and review of documents by charging the hourly rates of the employees performing the task, plus 16 percent for fringe benefits. The NRC last updated these fees in 2010. During the agency's biennial review of fees, it was determined that these fees needed to be increased in order to ensure the NRC recovers the direct costs of these activities.

### V. Plain Writing

The Plain Writing Act of 2010 (Pub. L. 111-274) requires Federal agencies to write documents in a clear, concise, and well-organized manner. The NRC has written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum, "Plain Language in Government Writing," published June 10, 1998 (63 FR 31883).

### VI. National Environmental Policy Act

The NRC has determined that this direct final rule is the type of action described in 10 CFR 51.22(c)(1). Therefore, neither an environmental impact statement nor an environmental

assessment has been prepared for this direct final rule.

### VII. Paperwork Reduction Act Statement

This direct final rule does not contain a collection of information as defined in the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) and, therefore, is not subject to the requirements of the Paperwork Reduction Act of 1995.

### Public Protection Notification

The NRC may not conduct or sponsor, and a person is not required to respond to a request for information or an information collection requirement unless the requesting document displays a currently valid OMB control number.

### VIII. Regulatory Flexibility Certification

Under the Regulatory Flexibility Act of 1980 (5 U.S.C. 605(b)), the NRC certifies that this direct final rule will not, if issued, have a significant economic impact on a substantial number of small entities. Search and review fees, which are borne by persons who voluntarily submit FOIA requests and represent only reasonable costs associated with the NRC's processing of such requests, are typically nominal. Additionally, as discussed above, the FOIA and NRC regulations provide means by which persons can request waiver or reduction of fees.

### IX. Congressional Review Act

This direct final rule is a rule as defined in the Congressional Review Act (5 U.S.C. 801-808). However, OMB has not found it to be a major rule as defined in the Congressional Review Act.

**List of Approved Spent Fuel Storage Casks: NAC International NAC–UMS® Universal Storage System, Certificate of Compliance No. 1015, Amendment No. 6**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Direct final rule; confirmation of effective date.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is confirming the effective date of January 7, 2019, for the direct final rule that was published in the **Federal Register** on October 22, 2018. This direct final rule amends the NRC’s spent fuel storage regulations by revising the NAC International NAC–UMS® listing within the “List of approved spent fuel storage casks” to include Amendment No. 6 to Certificate of Compliance No. 1015. Amendment No. 6 revises the technical specifications of the certificate of compliance to: Remove a redundant requirement for inspection of the concrete cask and canister; revise a limiting condition of operation for heat removal to clarify that “LCO not met” means that the concrete heat removal system is inoperable; remove an

inspection requirement that is already covered by limiting condition of operation surveillance requirements for off-normal, accident, or natural phenomenon events; and clarify that “immediate” restoration of a concrete cask’s heat removal capabilities means “within the design-basis time limit” in Section 11.2.13 of the final safety analysis report, “or within the time limit for a less than design-basis heat load case, as evaluated.” Amendment No. 6 also clarifies that a limiting condition of operation for loaded cask surface dose rates applies prior to storage conditions, when dose rates will be highest.

**DATES:** *Effective date:* The effective date of January 7, 2019, for the direct final rule published October 22, 2018 (83 FR 53159), is confirmed.

**ADDRESSES:** Please refer to Docket ID NRC–2018–0075 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <http://www.regulations.gov> and search for Docket ID NRC–2018–0075. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov). For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The proposed amendment to the certificate, the proposed Appendices A and B to the technical specifications, and preliminary safety evaluation report are available in ADAMS under Accession No. ML18088A169. The final amendment to the certificate, final appendices to the technical specifications, and final safety evaluation report can also be viewed in ADAMS under Accession No. ML18333A232.

- *NRC’s PDR:* You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

**FOR FURTHER INFORMATION CONTACT:**

**SUPPLEMENTARY INFORMATION:** On October 22, 2018 (83 FR 53159), the NRC published a direct final rule amending its regulations in part 72 of title 10 of the *Code of Federal Regulations* by revising the NAC International NAC–UMS® listing within the “List of approved spent fuel storage casks” to include Amendment No. 6 to Certificate of Compliance No. 1015. Amendment No. 6 revises the technical specifications of the certificate of compliance to: Remove a redundant requirement for inspection of the concrete cask and canister; revise a limiting condition of operation for heat removal to clarify that “LCO not met” means that the concrete heat removal system is inoperable; remove an inspection requirement that is already covered by limiting condition of operation surveillance requirements for off-normal, accident, or natural phenomenon events; and clarify that “immediate” restoration of a concrete cask’s heat removal capabilities means “within the design-basis time limit” in Section 11.2.13 of the final safety analysis report, “or within the time limit for a less than design-basis heat load case, as evaluated.” Amendment No. 6 also clarifies that a limiting condition of operation for loaded cask surface dose rates applies prior to storage conditions, when dose rates will be highest. In the direct final rule, the NRC stated that if no significant adverse comments were received, the direct final rule would become effective on January 7, 2019. The NRC did not receive any comments on the direct final rule. Therefore, this direct final rule will become effective as scheduled.

Dated at Rockville, Maryland, this 13th day of December 2018.

For the Nuclear Regulatory Commission.
