Defense for transparency and standardization of the mortuary procedures as part of the Final Report of the Dover Port Mortuary Independent Review Subcommittee Implementation Plan and 180-day study. The applicable form(s) is included in the individual case file of the decedent. This system provides a solution for Regional Center staff to manage operational, logistical and cost details about people, events, enrollments and organizations, a tool for reporting on all data related to Regional Center events, a platform for sharing common processes, terminology and data elements to facilitate efficient communication between the Regional Centers, a single view of each person with whom any of the Regional Centers have a relationship, representing the current snapshot and historical record of events and biographical information, an interface to other systems with which the Regional Centers must exchange data for use by other users and organizations, and an enterprise-class Customer Relationship Management platform to manage two-way communication between Security Assistance Network (SAN) and RCPAMS related to events and their participants.

As a result of reviewing this system of records notice (SORN), this modification updates the following categories: System location, system manager(s), purpose; categories of individuals, categories of records, routine uses, record access procedures, notification procedures, including the reformatting to coincide with the new SORN template defined in the Office of Management and Budget Circular A–108, “Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act.”
