The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on

Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* The licensee plans to perform a series of maintenance activities at the project that would require temporary variances in reservoir elevation and flow requirements contained in its license. The work would require a reservoir drawdown from mid-April to November 2019, deviating from the requirements of article 402. Flow would continue to be released downstream of the project. However, recreational flows in the east channel that are required by article 403 would cease because of the reduction in reservoir elevations during the drawdown. Deviations from these license requirements are necessary to complete the planned work. The licensee included with its filing a reservoir drawdown plan, as required by article 405. The licensee also included documentation of consultation with various parties, including the city of Wausau, National Park Service, U.S. Fish and Wildlife Service, Wisconsin Department of Natural Resources, and the Wisconsin State Historic Preservation Office.
