Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The purpose of this information collection request is to collect information from applicants to select recipients for the Presidential Innovation Award for Environmental Educators program. The U.S. Environmental Protection Agency (EPA or the Agency), in conjunction with the White House Council on Environmental Quality (CEQ), established the award program to meet the requirements of Section 8(e) of the National Environmental Education Act (20 U.S.C. 5507(e)).

Form Numbers: None.

Respondents/affected entities: K-12 teachers who teach on a full-time basis in a public school that is operated by a local education agency, including schools funded by the Bureau of Indian Affairs. For this program, a local education agency is one as defined by section 198 of the Elementary and Secondary Education Act of 1965 (now codified at 20 U.S.C. 7801(26)).

Respondent's obligation to respond: Required to obtain information from the applicants for Presidential Innovation

Award for Environmental Educators and assess certain aspects of the PIAEE program as established under Section 8(e) of the National Environmental Education Act (20 U.S.C. 5507(e)).

Estimated number of respondents: 75 (total).

Frequency of response: Annually.

Total estimated burden: 10 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$32,250 (per year) for 75 applicants, includes \$14,191 annualized capital or operation & maintenance costs.

Changes in the Estimates: We expect that after adjusting the burden numbers that the burden numbers will substantially stay the same. Program requirements are expected to stay the same and the estimates currently consider the use of technology to complete the application.

Dated: December 6, 2018.

Elizabeth (Tate) Bennett,

Associate Administrator, Office of Public Engagement and Environmental Education.

Abstract: The Emission Guidelines for Commercial and Industrial Solid Waste Incineration (CISWI) Units apply to any air quality program in either a state or a United States protectorate with one or more existing CISWI units. The guidelines can be thought of as model regulations that States use in developing State plans to implement the emission guidelines. If a state does not develop, adopt, and submit an approvable state plan, the Environmental Protection Agency (EPA) must develop a Federal plan to implement the emission guidelines. These regulations apply to existing CISWI units (units that

commenced construction on or before the date of proposal).

In general, all Emissions Guidelines standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 60, subpart DDDD.

Form numbers: None.

Respondents/affected entities:

Owners and operators of commercial and industrial solid waste incineration units.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart DDDD).

Estimated number of respondents: 78 (total).

Frequency of response: Initially, occasionally, semiannually, and annually.

Total estimated burden: 10,400 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$11,200,000 (per year), which includes \$10,000,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is an adjustment increase in the estimated burden cost and number of responses. The adjustment increase in burden from the most-recently approved ICR is due to an increase in the number of sources anticipated to remain subject to the provisions of Subpart DDDD since the last ICR renewal period, based on an inventory maintained by OAQPS. Specifically, the prior ICR assumed that a number of units in the incinerator subcategory would shut down based on amendments to the rule. However, a recent inventory of sources indicates that these incinerators remain in operation, and also identifies additional facilities with units in the small remote incinerators subcategory not previously included in the inventory. The adjustment increase in burden is due to more accurate estimates of existing sources. In addition, the burden hours were increased as a result of accounting for burden for each respondent to refamiliarize themselves with regulatory requirements each year.

Director, Regulatory Support Division.
