in Docket No. CP89-2048-000 and sections 157.205 and 157.211 of the Commission's regulations under the Natural Gas Act for authorization to construct and operate a new delivery point, the Eaglecrest meter station in Kern County, California, to serve E&B Natural Resources Management Corporation, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or TTY, contact (202) 502-8659.

Any questions concerning this application may be directed to Michael T. Loeffler, Senior Director, Certificates for Kern River, 1111 South 103rd Street, Omaha, Nebraska 68124, at (402) 398-7103.

Kern River states that, pursuant to Section 284.13(e) of the Commission's regulations, it is advising the Commission that it has provided the required notice to bypass to both Pacific Gas and Electric Company, the local distribution company that is currently providing service to E&B Natural Resources Management Corporation, and to California Public Utilities Commission, the appropriate regulatory agency, by sending copies of this application.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the

Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process.

Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenter will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Leather Finishing Operations (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), NESHAP for Leather Finishing Operations (EPA ICR No. 1985.08, OMB Control No. 2060-0478), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through December 31, 2018. Public comments were previously requested, via the **Federal Register**, on June 29, 2017 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given

below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before January 22, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2014-0083, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

The EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The potential respondents for this collection of information are owners or operators of any affected source with leather finishing operations subject to 40 CFR part 63, subpart TTTT. Owners and operators of affected facilities are required to comply with reporting and recordkeeping requirements for the General Provisions of the NESHAP (40 CFR part 63, subpart A), as well as for the requirements in 40 CFR part 63, subpart TTTT. This includes submitting initial notifications, performance tests and periodic reports

and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by the EPA to determine compliance with these standards.

Form numbers: None.

Respondents/affected entities: Leather finishing operations.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart TTTT).

Estimated number of respondents: 4 (total).

Frequency of response: Initially, occasionally and annually.

Total estimated burden: 138 hours (per year). Burden is defined as 5 CFR 1320.3(b).

Total estimated cost: \$12,500 (per year), which includes \$0 for capital/startup and/or operation & maintenance (O&M) costs.

Changes in the estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The change in the burden and cost estimates is due to more accurate estimates of existing sources based on the EPA's recent reevaluation of the source category inventory as part of a recently proposed risk and technology review (83 FR 11314, March 14, 2018), which indicated that several facilities have shut down since the last ICR renewal period. These changes result in an overall decrease in the labor hours, number of responses, and O&M costs.

Director, Regulatory Support Division.
