BILLING CODE 4162–20–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer at (240) 276–1243.

Project: Substance Abuse Prevention and Treatment Block Grant Synar Report Format, FFY 2020–2022—(OMB No. 0930–0222)—Extension

Section 1926 of the Public Health Service Act [42 U.S.C. 300x–26]

stipulates that Substance Abuse Prevention and Treatment Block Grant (SABG) funding agreements for alcohol and drug abuse programs for fiscal year 1994 and subsequent fiscal years require states to have in effect a law providing that it is unlawful for any manufacturer, retailer, or distributor of tobacco products to sell or distribute any such product to any individual under the age of 18. This section further requires that states conduct annual, random, unannounced inspections to ensure compliance with the law; that the state submit annually a report describing the results of the inspections, the activities carried out by the state to enforce the required law, the success the state has achieved in reducing the availability of tobacco products to individuals under the age of 18, and the strategies to be utilized by the state for enforcing such law during the fiscal year for which the grant is sought.

Before making an award to a state under the SABG, the Secretary must make a determination that the state has maintained compliance with these requirements. If a determination is made that the state is not in compliance, penalties shall be applied. Penalties ranged from 10 percent of the Block Grant in applicable year 1 (FFY 1997 SABG Applications) to 40 percent in applicable year 4 (FFY 2000 SABG Applications) and subsequent years. Respondents include the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the U.S.

Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, Palau, Micronesia, and the Marshall Islands. Red Lake Indian Tribe is not subject to tobacco requirements.

Regulations that implement this legislation are at 45 CFR 96.130, are approved by OMB under control number 0930–0163, and require that each state submit an annual Synar report to the Secretary describing their progress in complying with section 1926 of the PHS Act. The Synar report, due December 31 following the fiscal year for which the state is reporting, describes the results of the inspections and the activities carried out by the state to enforce the required law; the success the state has achieved in reducing the availability of tobacco products to individuals under the age of 18; and the strategies to be utilized by the state for enforcing such law during the fiscal year for which the grant is sought. SAMHSA’s Center for Substance Abuse Prevention will request an extension of OMB approval of the current report format associated with section 1926 (42 U.S.C. 300x–26) to 2022. Extending OMB approval of the current report format will continue to facilitate consistent, credible, and efficient monitoring of Synar compliance across the states.

ANNUAL REPORTING BURDEN

45 CFR citation	Number of respondents ¹	Responses per respondents	Total number of responses	Hours per response	Total hour burden
Annual Report (Section 1—States and Territories) 96.130(e)(1–3)	59	1	59	15	885
State Plan (Section II—States and Territories) 96.130(e)(4,5)96.130(g)	59	1	59	3	177
Total	59	118	1,062

¹ Red Lake Indian Tribe is not subject to tobacco requirements.

Written comments and recommendations concerning the proposed information collection should be sent by March 4, 2019 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB’s receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov. Although commenters are encouraged to

send their comments via email, commenters may also fax their comments to: 202–395–7285. Commenters may also mail them to: Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, Room 10102, Washington, DC 20503.

[FWS–HQ–ES–2018–N112; FXES1113010000C4–189–FF02ENEH00]

Endangered and Threatened Wildlife and Plants; 26 Draft Recovery Plan Amendments for 42 Species Across the United States

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; opening of public comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of 26 draft recovery plan amendments for 42 endangered and threatened species. We are amending recovery criteria to better assist in determining when an endangered species has recovered to the point that it may be reclassified as threatened, or that the protections afforded by the Endangered Species Act of 1973, as amended (Act), are no longer necessary and the endangered species may be removed from the Act's protections. We request review and comments on these draft recovery plan amendments from local, State, Tribal, and Federal agencies, nongovernmental organizations, and the public.

DATES: In order to be considered, comments on the draft recovery plan amendments must be received on or before April 1, 2019.

ADDRESSES: *Reviewing documents:* If you wish to review these draft recovery plan amendments, you may obtain copies from the website addresses listed in the table provided in **SUPPLEMENTARY INFORMATION**. You may also request copies of draft recovery plan amendments by contacting the individuals listed in the table provided in this notice, relevant to each species or recovery plan, or both.

Submitting comments: If you wish to comment, see the table provided in this notice and you may submit your comments by one of the following methods:

1. You may submit written comments and materials to each field office mailing address for the species in which you are interested;

2. You may hand-deliver written comments to each field office, in the table at the identified address, for the species in which you are interested; or

3. You may send comments by email to the identified contact person's email address in the table, for each species. Please include "Amended Recovery Plan Comments" in the subject line.

FOR FURTHER INFORMATION CONTACT: For information on a particular species, contact the appropriate person listed in the table for each species in **SUPPLEMENTARY INFORMATION**.

Individuals who are hearing impaired may call the Federal Relay Service at 800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION:

Background

In this notice, we announce the availability of 26 draft recovery plan amendments, which revise recovery criteria for 42 endangered and threatened species, for public review

and comment. These 26 draft recovery plan amendments are a subset of a larger effort under way to revise up to 182 recovery plans covering up to 305 species in order to achieve the following Department of the Interior Agency Priority Performance Goal outlined in the Department's Strategic Plan for Fiscal Years 2018–2022: "By September 30, 2019, 100% of all Fish and Wildlife Service recovery plans will have quantitative criteria for what constitutes a recovered species." Given the timeline associated with this Agency Priority Performance goal, we are relying on the public comment period to facilitate an efficient communication, coordination, and collaboration process with the wide variety of potential stakeholders we consider essential to the development and implementation of recovery plans. Recovery plans must be designed so that all stakeholders and the public understand the rationale behind the recovery program, whether they were involved in writing the plan or not, and recognize their role in its implementation. We are, therefore, requesting submission of any information that may help achieve (1) the necessary understanding of species' biology, threats and recovery needs; (2) identification of implementation issues and concerns; and (3) facilitation of more effective implementation, associated with these draft amendments that revise recovery criteria for these 42 species.

The Service is required to develop and implement recovery plans "for the conservation and survival" of listed species under section 4(f) of the Act, unless the Service finds that developing a recovery plan would not promote the conservation of the species. The Act also requires inclusion of: (1) "Site-specific management actions as may be necessary to achieve the plan's goal for the conservation and survival of the species"; (2) "Objective, measurable criteria which, when met, would result in a determination . . . that the species be removed from the list"; and (3) "Estimates of the time required and the cost to carry out those measures needed to achieve the plan's goal and to achieve intermediate steps toward that goal."

The purpose of a recovery plan is to provide a roadmap for a species' recovery, with the goal of improving its status and managing its threats to the point at which protections under the Act are no longer needed. A recovery plan identifies, organizes, and prioritizes recovery actions and is, therefore, an important guide to ensure sound scientific decision-making throughout the recovery process, which can take decades. Recovery plans

provide important guidance to the Service, States, other partners, and the general public on methods of minimizing threats to listed species and measurable objectives against which to measure the progress towards recovery; they are guidance and not regulatory documents.

Recovery plans should be consulted frequently, used to initiate recovery activities, and updated as needed. Keeping recovery plans current will ensure that the species benefits through timely, partner-coordinated implementation, based on the best available information. A review of the recovery plan and its implementation, however, may show that the recovery plan is out of date or its usefulness is limited and, therefore, warrants modification. The need for, and extent of, recovery plan modifications will vary considerably among recovery plans, depending on the scope and complexity of the initial plan, the structure of the document, and the involvement of stakeholders.

The need for revision may be triggered when, among other possibilities: (1) New information has been identified, such as population-level threats to the species or previously unknown life-history traits, that necessitates new or revised recovery strategy, actions, or criteria, or revision of all three; (2) the current recovery plan is out of date with regard to the information presented in it or requirements for an adequate recovery plan (a recovery strategy, threats-based recovery criteria, etc.); or (3) the current plan is not achieving its objectives. An amendment, a type of recovery plan revision, is more limited in scope than a full revision of the recovery plan and modifies an existing plan, rather than replacing the entire existing recovery plan. Revisions benefit endangered and threatened species, our partners, and the public by incorporating new information about life history, threats, and/or species' response to management from study findings and focusing on what is really needed for species' recovery.

Recovery criteria serve as objective, measurable guidelines to assist in determining when an endangered species has recovered to the point that it may be downlisted to threatened, or that the protections afforded by the Act are no longer necessary and the species may be delisted. Delisting is the removal of a species from the Federal Lists of Endangered and Threatened Wildlife and Plants. Downlisting is the reclassification of a species from an endangered species to a threatened species. The term "endangered species"

means any species (species, subspecies, or distinct population segment) that is in danger of extinction throughout all or a significant portion of its range. The term “threatened species” means any species which is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range.

Recovery criteria should help indicate when we would anticipate that an analysis of the species’ status under section 4(a)(1) would result in a determination that the species is no longer an endangered or threatened species. A decision to revise the status of or remove a species from the Federal Lists of Endangered and Threatened

Wildlife and Plants, however, is ultimately based on an analysis of the threats to the species in accordance with sections 4(a)(1) and 4(b) of the Act and made “solely on the basis of the best scientific and commercial data available,” regardless of whether that information differs from the recovery plan. When changing the status of a species, we first propose the action in the **Federal Register** to seek public comment and peer review, followed by a final decision announced in the **Federal Register**.

Revision of recovery plans requires public notice and comment under section 4(f)(4) of the Act, including: (1) A **Federal Register** notice of availability

to give opportunity for public review and comment; (2) consideration of all information presented during the public comment period; and (3) approval by the Regional Director. When finalized, these recovery plan amendments will be made publicly available on the internet through our Environmental Conservation Online System (ECOS, <https://ecos.fws.gov>).

What plans are being made available for public review and comment?

This notice announces our draft recovery plan amendments for the species listed in the table below.

How do I ask questions or provide information?

If you wish to provide information for any species listed above, please submit your comments and materials to the appropriate contact in the table above. You may also direct questions to those contacts. Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800-877-8339 for TTY assistance.

Request for Public Comments

We request written comments on the draft recovery plan modifications. We will consider all comments we receive by the date specified in **DATES** prior to final approval of the plans.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

The authority for this action is section 4(f) of the Endangered Species Act (16 U.S.C. 1533 (f)).

Dated: August 28, 2018.

James W. Kurth,

Deputy Director, U.S. Fish and Wildlife Service, Exercising the Authority of the Director, U.S. Fish and Wildlife Service.

[FR Doc. 2019-00436 Filed 1-30-19; 8:45 am]

BILLING CODE 4333-15-P

DEPARTMENT OF JUSTICE

Antitrust Division

Notice Pursuant to the National Cooperative Research and Production Act of 1993—IMS Global Learning Consortium, Inc.

Notice is hereby given that, on December 17, 2018, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), IMS Global Learning Consortium, Inc. (“IMS Global”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership. The notifications were filed for the purpose of extending the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, Abre, Cincinnati, OH; Brigham Young University—Idaho, Rexburg, ID; Casio, Tokyo, JAPAN; CatchOn, Nashville, TN; Crosstown High School, Memphis, TN; GG4L—Global Grid For Learning, Alameda, CA; Hall County Board of Education, Gainesville, GA; Learning Logistics, McKinney, TX; Madison College/Digital Credentials Institute, Madison, WI; and Michigan Collaboration Hub (fiduciary of the Michigan Data Hub), Lansing, MI, have been added as parties to this venture.

Also, Placid Consulting, Cedar Park, TX; Virtual High School, Maynard, MA; Indian River School District, Selbyville, DE; and Loudon County Public Schools, Ashburn, VA, have withdrawn as parties to this venture.

In addition, Norwegian Centre for ICT in Education has changed its name to Norwegian Directorate for Education, Hamar, NORWAY.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and IMS Global intends to file additional written notifications disclosing all changes in membership.

On April 7, 2000, IMS Global filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on September 13, 2000 (65 FR 55283).

The last notification was filed with the Department on October 1, 2018. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on October 12, 2018 (83 FR 51706).

Suzanne Morris,

Chief, Premerger and Division Statistics Unit, Antitrust Division.
