Title of Collection: OESE Performance Review and Self-assessment Protocol. OMB Control Number: 1810–NEW.

Type of Review: A new information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 45.

Total Estimated Number of Annual Burden Hours: 90.

Abstract: The Department of Education’s Office of Elementary and Secondary Education (OESE) administers multiple programs administered by State Educational Agencies (SEAs), including Title I, Sections 1001–1004 (School Improvement); Title I, Part A (Improving Basic Programs Operated by Local Educational Agencies); Title I, Part B (Enhanced Assessments Grants (EAG), and Grants for State Assessments and Related Activities); Title II, Part A (Supporting Effective Instruction); Title III, Part A (English Language Acquisition, Language Enhancement, and Academic Achievement). Annual performance reviews—anual phone or on-site conversations with a purposeful sample of SEA and Local Education Agency (LEA) program directors and coordinators—help ensure that an SEA and its LEA are making progress toward improving student achievement and the quality of instruction for all students and are ensuring requirements are met through the review of the program and fiscal requirements to safeguard public funds from waste, fraud, and abuse. The information shared with OESE also informs the selection and delivery of technical assistance to SEAs and aligns structures, processes, and routines so OESE can regularly monitor the connection between grant administration and intended outcomes.

[FE Docket No. 13–132–LNG]

Magnolia LNG LLC; Application for Amendment to Long-Term Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations

AGENCY: Office of Fossil Energy, DOE.
ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application for amendment (Application), filed on December 31, 2018, by Magnolia LNG LLC (Magnolia LNG). Previously, on November 30, 2016, in DOE/FE Order No. 3909, DOE/FE authorized Magnolia LNG to export domestically produced liquefied natural gas (LNG) from the proposed Magnolia LNG Terminal, to be located near Lake Charles, Calcasieu Parish, Louisiana (Magnolia LNG Terminal), to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policies (non-FTA countries). DOE/FE Order No. 3909 authorizes Magnolia LNG to export LNG in a volume equivalent to 394.2 billion cubic feet per year (Bcf/yr) of natural gas (1.08 Bcf per day) (Bcf/d). The Application requests a “capacity increase,” i.e., to increase Magnolia LNG’s approved non-FTA export volume to a total requested volume of 449 Bcf/yr (1.23 Bcf/d), which Magnolia states is equivalent to 8.8 million metric tons per annum (mtpa). Magnolia LNG states that this proposed increase will align its non-FTA export volume with the maximum LNG production for the Magnolia LNG Terminal, as requested in an application filed with the Federal Energy Regulatory Commission (FERC). Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene, or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, April 2, 2019.

ADDRESS:
Electronic Filing by email: fergas@hq.doe.gov.
Hand Delivery or Private Delivery Services (e.g., FedEx, UPS, etc.): U.S. Department of Energy (FE–34), Office of Regulation, Analysis, and Engagement, Office of Fossil Energy, Forrestal Building, Room 3E–042, 1000 Independence Avenue SW, Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT:

DOE/FE Evaluation
The Application was filed under section 3 of the Natural Gas Act (NGA). This Notice applies only to the portion of the Application requesting authority to amend DOE/FE Order No. 3909 authorizing exports of LNG to non-FTA countries pursuant to section 3(a) of the Natural Gas Act (NGA), 15 U.S.C. 717b(a). DOE/FE will review Magnolia LNG’s request to amend its FTA export authorizations in DOE/FE Order Nos. 3243 and 3406 separately pursuant to section 3(c) of the NGA, 15 U.S.C. 717b(c).

DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE’s policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider the study entitled, Macroeconomic Outcomes of Market Determined Levels of U.S. LNG Exports (2018 LNG Export Study),¹ and DOE/FE’s response to public comments received on that Study.²

Additionally, DOE will consider the following environmental documents:

• Addendum to Environmental Review Documents Concerning Exports

² U.S. Dep’t of Energy, Study on Macroeconomic Outcomes of LNG Exports: Response to Comments Received on Study; Notice of Response to Comments, 83 FR 67251 (Dec. 28, 2018).
