

customary business with FSA for loans; this means no travel times is required specifically for the information collection and therefore, it is no longer included in the burden hour reporting.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hour is the estimated average time per responses hours multiplied by the estimated total annual responses.

Estimate of Average Time to Respond: Public reporting burden for the information collection is estimated to average 0.312 hours per response.

Type of Respondents: Individuals or households, businesses or other for-profit farms.

Estimated Annual Number of Respondents: 184,871.

Estimated Number of Responses per Respondent: 3.7.

Estimated Total Annual Responses: 698,394.

Estimated Average Time per Response: 0.312 hours.

Estimated Total Annual Burden on Respondents: 217,927 hours.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility and clarity of the information to be collected;

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.
