

Administration (FDA) on December 19, 2006.

Review of the patent term extension application indicates that, except for permission to market or use the product commercially, the subject patent would be eligible for an extension of the patent term under 35 U.S.C. 156, and that the patent should be extended for one year as required by 35 U.S.C. 156(d)(5)(B). Because the regulatory review period will continue beyond the original expiration date of the patent, March 31, 2019, interim extension of the patent term under 35 U.S.C. 156(d)(5) is appropriate.

An interim extension under 35 U.S.C. 156(d)(5) of the term of U.S. Patent No. 7,534,790 is granted for a period of one year from the original expiration date of the patent.

Dated: January 29, 2019.

Robert Bahr,

Deputy Commissioner for Patent Examination Policy, United States Patent and Trademark Office.
