The Medicare Rural Hospital

 amended. The purpose of the Flex
 Program is to enable state designated
 entities to support critical access
 hospitals in quality improvement,
 quality reporting, performance
 improvement, and benchmarking; to
 assist facilities seeking designation as
 critical access hospitals; and to create a
 program to establish or expand the
 provision of rural emergency medical
 services.

*Need and Proposed Use of the
 Information:* For this program,
 performance measures were developed
 to provide data useful to the Flex
 program and to enable HRSA to provide

aggregate program data required by
 Congress under the Government
 Performance and Results Modernization
 Act of 2010 (GPRA). These measures
 cover principal topic areas of interest to
 the Federal Office of Rural Health
 Policy, including: (a) Quality reporting,
 (b) quality improvement interventions,
 (c) financial and operational
 improvement initiatives, (d) population
 health management, and (e) innovative
 care models. In addition to informing
 the Office's progress toward meeting the
 goals set in GPRA, the information is
 important in identifying and
 understanding programmatic
 improvement across program areas, as
 well as guiding future iterations of the
 Flex Program and prioritizing areas of
 need and support.

Likely Respondents: Respondents are
 the Flex Program coordinators for the
 states participating in the Flex Program.
 There are currently 45 states
 participating in the Flex Program.

Burden Statement: Burden in this
 context means the time expended by
 persons to generate, maintain, retain,
 disclose, or provide the information
 requested. This includes the time
 needed to review instructions; to
 develop, acquire, install, and utilize
 technology and systems for the purpose
 of collecting, validating and verifying
 information, processing and
 maintaining information, and disclosing
 and providing information; to train
 personnel and to be able to respond to
 a collection of information; to search
 data sources; to complete and review
 the collection of information; and to
 transmit or otherwise disclose the
 information. The total annual burden
 hours estimated for this ICR are
 summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total Burden Hours
Medicare Rural Hospital Flexibility Program	45	1	45	70	3,150
Total	45	45	3,150

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
