

entities that are not currently licensees of the project.³

Because the existing license expires on December 31, 2023, the NOI was due to be filed by the close of business on December 31, 2018. The Lansing Board of Water and Light, the existing licensee for the Moores Park Project, failed to file an NOI for the project by this date.⁴

Any party interested in filing a license application for the Moores Park Project No. 10684 must first file a NOI⁵ and pre-application document (PAD)⁶ pursuant to Part 5 of the Commission's regulations. Although the integrated licensing process (ILP) is the default pre-filing process, section 5.3(b) of the Commission's regulations allows a potential license applicant to request to use the traditional licensing process or alternative procedures when it files its NOI.⁷

This notice sets a deadline of 120 days from the date of this notice for interested applicants, other than the existing licensee, to file NOIs, PADs, and requests to use the traditional licensing process or alternative procedures.

Applications for a subsequent license from potential applicants must be filed with the Commission at least 24 months prior to the expiration of the existing license.⁸ Because the existing license expires on December 31, 2023, applications for license for this project must be filed by December 31, 2021.⁹

Questions concerning this notice should be directed to Lee Emery at (202) 502-8379 or lee.emery@ferc.gov.

Dated: January 31, 2019.
