

Scientific and Statistical Committee and the Pacific Council at their April meeting in Rohnert Park, CA.

Although nonemergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent of the Pacific Council meeting participants to take final action to address the emergency.

### Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (503) 820-2411 at least 10 days prior to the meeting date.

Dated: February 1, 2019.

#### Endangered Species; File No. 20315

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; receipt of an application for a permit modification.

**SUMMARY:** Notice is hereby given that Kristen Hart, Ph.D., U.S. Geological Survey, 3205 College Ave., Davie, FL 33314 has requested a permit modification to Permit No. 20315.

**DATES:** Written, telefaxed, or email comments must be received on or before March 8, 2019.

**ADDRESSES:** The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 20315-04 from the list of available applications.

These documents are also available upon written request or by appointment

in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone: (301) 427-8401; fax: (301) 713-0376.

Written comments on the application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to [NMFS.Pr1Comments@noaa.gov](mailto:NMFS.Pr1Comments@noaa.gov). Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on the application would be appropriate.

**FOR FURTHER INFORMATION CONTACT:** Erin Markin or Amy Hapeman, (301) 427-8401.

**SUPPLEMENTARY INFORMATION:** The subject permit modification is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 20315 issued on August 11, 2017 (82 FR 11181) authorizes Dr. Hart to take green (*Chelonia mydas*), hawksbill (*Eretmochelys imbricata*), and loggerhead (*Caretta caretta*) sea turtles for research in in the U.S. Virgin Islands, including Buck Island Reef National Monument, Virgin Islands Coral Reef National Monument, and Virgin Islands National Park. Researchers may conduct vessel surveys for sea turtle counts, captures (by hand or dip, tangle, and cast nets), examination, observation, marking, biological sampling, tagging, and morphometrics. The objectives of the research are to identify inter-nesting habitats, foraging zones, and movement corridors and characterize fine- and broad-scale spatial and temporal patterns of sea turtle habitat use. The permit holder requests authorization to add a new research project that requires the following changes to the permit: (1) Add new objectives to assess the population structure and describe fine scale dive profiles for turtle species; (2) expand the research area to include the Dry Tortugas to Appalachicola Florida, Florida Keys, Everglades and Biscayne National Parks, and the Atlantic coast up to the North Carolina/Virginia border; (3) increase the annual number of sea turtles that may be taken (an additional 240 green, 140 hawksbill,

and 190 loggerhead), and add takes of another species (60 Kemp's ridley [*Lepidochelys kempii*] sea turtles) for study; (4) add methods to include strike nets as a capture method and to obtain animals for study that were captured by another legal authority in lieu of directed capture efforts; and (5) extend the duration of the permit until September 30, 2026.

Dated: February 1, 2019.

**Julia Marie Harrison,**
