Surface Transportation Project Delivery Program; TxDOT Audit #5 Report

AGENCY: Federal Highway Administration (FHWA), U.S. Department of Transportation (DOT)

ACTION: Notice, request for comment.

SUMMARY: The Surface Transportation Project Delivery Program allows a State to assume FHWA’s environmental responsibilities for review, consultation, and compliance for Federal highway projects. When a State assumes these Federal responsibilities, the State becomes solely responsible and liable for carrying out the responsibilities it has assumed, in lieu of FHWA. Prior to the Fixing America’s Surface Transportation (FAST) Act, the Program required semiannual audits during each of the first 2 years of State participation to ensure compliance by each State participating in the Program. This notice announces and solicits comments on the fifth and last audit report for the Texas Department of Transportation’s (TxDOT) participation in accordance to these pre-FAST Act requirements.

DATES: Comments must be received on or before March 8, 2019.

Background

The Surface Transportation Project Delivery Program (or NEPA Assignment Program) allows a State to assume FHWA’s environmental responsibilities for review, consultation, and compliance for Federal highway projects. This provision has been codified at 23 U.S.C. 327. Since December 16, 2014, TxDOT has assumed FHWA’s responsibilities under NEPA and the responsibilities for reviews under other Federal environmental requirements under this authority.

Prior to December 4, 2015, 23 U.S.C. 327(g) required the Secretary to conduct semiannual audits during each of the first 2 years of State participation, annual audits during years 3 and 4, and monitoring each subsequent year of State participation to ensure compliance by each State participating in the Program. The results of each audit were required to be presented in the form of an audit report and be made available for public comment. On December 4, 2015, the President signed into law the FAST Act, Public Law 114–94, 129 Stat. 1312 (2015). Section 1308 of the FAST

Act amended the audit provisions by limiting the number of audits to one audit each year during the first 4 years of a State’s participation. This notice announces the availability of the report for the fifth and final audit for TxDOT conducted prior to the FAST Act and solicits public comment on same.

Authority: Section 1313 of Public Law 112–141; Section 6005 of Public Law 109–59; Public Law 114–94; 23 U.S.C. 327; 49 CFR 1.85.

Issued on: January 8, 2019.

Deputy Administrator, Federal Highway Administration.

DRAFT

Surface Transportation Project Delivery Program, FHWA Audit #5 of the Texas Department of Transportation, August 1, 2017 to August 1, 2018

Executive Summary

This is a report of Federal Highway Administration’s (FHWA’s) fifth audit (Audit #5) of the Texas Department of Transportation (TxDOT) responsibilities assigned under a memorandum of understanding (MOU) effective December 16, 2014. From that date, TxDOT assumed FHWA’s National Environmental Policy Act (NEPA) responsibilities assigned for the environmental review and compliance and for other environmental review laws and requirements for highway projects in Texas (NEPA Assignment Program). The report concludes with a status update for FHWA’s observations from the fourth audit review (Audit #4).

The FHWA Audit #5 team (team) was formed in October 2017 and met regularly to prepare for the on-site portion of the audit. Prior to the on-site visit, the team: (1) Performed reviews of project files in TxDOT’s Environmental Compliance Oversight System (ECOS), (2) examined TxDOT’s responses to FHWA’s pre-audit information requests (PAIR), and (3) developed interview questions. The on-site portion of this audit, comprised of TxDOT interviews, was conducted on May 21–25, 2018.

The TxDOT continues to develop, revise, and implement procedures and processes required to carry out the NEPA Assignment Program. Overall, the team found continued evidence that TxDOT is committed to establishing a successful program. This report summarizes the team’s assessment of the status of several aspects of the NEPA Assignment Program, including a variety of successful practices and five observations that represent opportunities for TxDOT to improve its program. The team identified two categories of non-compliance
