Civil Monetary Penalty Adjustments for Inflation

AGENCY: Office of the Chief Financial Officer and Assistant Secretary for Administration, Department of Commerce.

ACTION: Final rule.

SUMMARY: This final rule is being issued to adjust for inflation each civil monetary penalty (CMP) provided by law within the jurisdiction of the United States Department of Commerce (Department of Commerce). The Federal Civil Penalties Inflation Adjustment Act of 1990, as amended by the Debt Collection Improvement Act of 1996 and the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015, required the head of each agency to adjust for inflation its CMP levels in effect as of November 2, 2015, under a revised methodology that was effective for 2016 which provided for initial catch up adjustments for inflation in 2016, and requires adjustments for inflation to CMPs under a revised methodology for each year thereafter. The 2018 adjustments for inflation to

CMPs to the Department of Commerce's CMPs were published in the **Federal Register** on January 8, 2018, and became effective January 15, 2018. The annual methodology provides for the improvement of the effectiveness of CMPs and to maintain their deterrent effect. Agencies' annual adjustments for inflation to CMPs shall take effect not later than January 15. The Department of Commerce's 2019 adjustments for inflation to CMPs apply only to CMPs with a dollar amount, and will not apply to CMPs written as functions of violations. The Department of Commerce's 2019 adjustments for inflation to CMPs apply only to those CMPs, including those whose associated violation predated such adjustment, which are assessed by the Department of

Commerce after the effective date of the new CMP level.

DATES: This rule is effective March 1, 2019.

SUPPLEMENTARY INFORMATION:

Background

The Federal Civil Penalties Inflation Adjustment Act of 1990 (Pub. L. 101-410; 28 U.S.C. 2461), as amended by the Debt Collection Improvement Act of 1996 (Pub. L. 104-134), provided for agencies' adjustments for inflation to CMPs to ensure that CMPs continue to maintain their deterrent value and that CMPs due to the Federal Government were properly accounted for and collected.

A CMP is defined as any penalty, fine, or other sanction that:

1. Is for a specific monetary amount as provided by Federal law, or has a maximum amount provided for by Federal law; and,
2. Is assessed or enforced by an agency pursuant to Federal law; and,
3. Is assessed or enforced pursuant to an administrative proceeding or a civil action in the Federal courts.

On November 2, 2015, the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (Section 701 of Pub. L. 114-74) further amended the Federal Civil Penalties Inflation Adjustment Act of 1990 to improve the effectiveness of CMPs and to maintain their deterrent effect. This amendment (1) required agencies to adjust the CMP levels in effect as of November 2, 2015, with initial catch up adjustments for inflation through a final rulemaking to take effect no later than August 1, 2016; and (2) requires agencies to make subsequent annual adjustments for inflation to CMPs that shall take effect not later than January 15. The Department of Commerce's 2018 adjustments for inflation to CMPs were published in the **Federal Register** on January 8, 2018, and the new CMP levels became effective January 15, 2018.

The Department of Commerce's 2019 adjustments for inflation to CMPs apply only to CMPs with a dollar amount, and will not apply to CMPs written as functions of violations. These 2019 adjustments for inflation to CMPs apply only to those CMPs, including those whose associated violation predated such adjustment, which are assessed by the Department of Commerce after the effective date of the new CMP level.

This regulation adjusts for inflation CMPs that are provided by law within the jurisdiction of the Department of Commerce. The actual CMP assessed for a particular violation is dependent upon a variety of factors. For example, the National Oceanic and Atmospheric Administration's (NOAA) Policy for the Assessment of Civil Administrative Penalties and Permit Sanctions (Penalty Policy), a compilation of NOAA internal guidelines that are used when assessing CMPs for violations for most of the statutes NOAA enforces, will be interpreted in a manner consistent with this regulation to maintain the deterrent effect of the CMPs. The CMP ranges in the Penalty Policy are intended to aid enforcement attorneys in determining the appropriate CMP to assess for a particular violation. The Penalty Policy is maintained and made available to the public on NOAA's Office of the General Counsel, Enforcement Section website at: <http://www.gc.noaa.gov/enforce-office.html>.

The Department of Commerce's 2019 adjustments for inflation to CMPs set forth in this regulation were determined pursuant to the methodology prescribed by the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015, which requires the maximum CMP, or the minimum and maximum CMP, as applicable, to be increased by the cost-of-living adjustment. The term "cost-of-living adjustment" is defined by the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015. For the 2019 adjustments for inflation to CMPs, the cost-of-living adjustment is the percentage for each CMP by which the Consumer Price Index for the month of October 2018 exceeds the Consumer Price Index for the month of October 2017.

Classification

Pursuant to 5 U.S.C. 553(b)B, there is good cause to issue this rule without prior public notice or opportunity for public comment because it would be impracticable and unnecessary. The Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (Section 701(b)) requires agencies to make annual adjustments for inflation to CMPs notwithstanding section 553 of

title 5, United States Code.

Additionally, the methodology used for adjusting CMPs for inflation is given by statute, with no discretion provided to agencies regarding the substance of the adjustments for inflation to CMPs. The Department of Commerce is charged only with performing ministerial computations to determine the dollar amounts of adjustments for inflation to CMPs. Accordingly, prior public notice and an opportunity for public comment are not required for this rule.

Paperwork Reduction Act

The provisions of the Paperwork Reduction Act of 1995, Public Law 104-13, 44 U.S.C. Chapter 35, and its implementing regulations, 5 CFR part 1320, do not apply to this rule because there are no new or revised recordkeeping or reporting requirements.

Regulatory Analysis

E.O. 12866, Regulatory Review
This rule is not a significant regulatory action as that term is defined in Executive Order 12866.

Regulatory Flexibility Act

Because notice of proposed rulemaking and opportunity for comment are not required pursuant to 5 U.S.C. 553, or any other law, the analytical requirements of the Regulatory Flexibility act (5 U.S.C. 601, *et seq.*) are inapplicable. Therefore, a regulatory flexibility analysis is not required and has not been prepared.

BILLING CODE 3510-DP-P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

21 CFR Part 1308

[Docket No. DEA-305]

Control of Immediate Precursor Used in the Illicit Manufacture of Fentanyl as Schedule II Controlled Substances; Correction

AGENCY: Drug Enforcement Administration, Department of Justice.

ACTION: Final rule.

SUMMARY: On June 29, 2010, the Drug Enforcement Administration (DEA) placed the fentanyl immediate precursor

chemical "4-anilino-N-phenethyl-4-piperidine," (CASRN 21409-26-7) into Schedule II of the Controlled Substances Act. It has come to DEA's attention that the drug name listed in the final rule contained a minor error and the drug name should have been "4-anilino-N-phenethylpiperidine (ANPP)." This document corrects that listing in the Code of Federal Regulations. Because this change is ministerial, the DEA has determined for good cause that public notice and comment is unnecessary under the Administrative Procedure Act (APA) and is implementing this change by means of a final rule without notice and comment.

DATES: Effective February 7, 2019.

SUPPLEMENTARY INFORMATION: On June 29, 2010, the DEA designated ANPP as an immediate precursor for the Schedule II controlled substance fentanyl under the definition set forth in 21 U.S.C. 802(23). 75 FR 37295 (Jun. 29, 2010). ANPP is the immediate chemical intermediary in the synthesis process used by clandestine laboratory operators for the illicit manufacture of the Schedule II controlled substance fentanyl.

In the rulemaking, the DEA inadvertently introduced an error into the drug name. This rulemaking is intended to correct that ministerial error.

Both the notice of proposed rulemaking and the final rule referenced the chemical name as "4-anilino-N-phenethyl-4-piperidine (ANPP)" and "CASRN 21409-26-7" (Chemical Abstract Service Registry Number).¹ 73 FR 19175, 19176 (Apr. 9, 2008); 75 FR 37295, 37296 (Jun. 29, 2010). While the abbreviation ANPP and the Chemical Abstract Service Registry Number 21409-26-7 correctly identified the compound, the name "4-anilino-N-phenethyl-4-piperidine" is incorrect and is without meaning. The correct

¹ Chemical Abstract Service Registry Numbers are used to identify specific compounds. Chemicals are often identified by a wide variety of names, which are generated according to international/regional naming conventions relating to chemical formula and chemical structure. Chemical Abstract Service Registry Numbers link a specific chemical compound across various nomenclatures (naming schemes) and are useful in definitively identifying a particular compound. Synonymous names are under one CASRN number.
