## ENVIRONMENTAL PROTECTION AGENCY

#### 40 CFR Part 80

[EPA-HQ-OAR-2018-0114; FRL-9988-86-OAR]

RIN 2060-AU32

Regulation of Fuels and Fuel
Additives: Removal of the
Reformulated Gasoline Program From
the Northern Kentucky Portion of the
Cincinnati-Hamilton Ozone
Maintenance Area

AGENCY: Environmental Protection

Agency (EPA). **ACTION:** Final rule.

**SUMMARY:** In this final action, EPA is amending its reformulated gasoline regulations to reflect that Boone, Campbell, and Kenton counties in Kentucky (the Northern Kentucky Area), which are part of the Cincinnati-Hamilton, Ohio-Kentucky-Indiana ozone area, are no longer federal reformulated gasoline (RFG) covered areas as of July 1, 2018. As described in a separate document published on May 16, 2018, pursuant to EPA's regulations, EPA approved an April 18, 2017 petition from the state of Kentucky to opt-out of the federal RFG program and removed the requirement to sell federal RFG in the Northern Kentucky Area as of July 1, 2018. This effective date applies to retailers, wholesale purchaser-consumers, refiners, importers, and distributors. This rulemaking merely conforms the list of RFG covered areas in the regulations to reflect the effective date of the opt-out for the Northern Kentucky Area.

**DATES:** This final rule is effective on February 7, 2019.

## SUPPLEMENTARY INFORMATION:

The contents of this preamble are listed in the following outline:

I. General Information

II. Background

III. Action

IV. Public Participation

V. Statutory and Executive Order Reviews VI. Legal Authority and Statutory Provisions

#### I. General Information

## A. Does this action apply to me?

Entities potentially affected by this final action are fuel producers and distributors who do business in the Northern Kentucky Area.

Examples of potentially regulated entities	NAICS <sup>1</sup> codes
Petroleum refineries	324110 424710
Gasoline Marketers and Distributors	424720 447110 484220 484230

<sup>1</sup> North American Industry Classification System.

The above table is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be regulated by this action. The table lists the types of entities of which EPA is aware that potentially could be affected by this final action. Other types of entities not listed on the table could also be affected. To determine whether your organization could be affected by this final action, you should carefully examine the regulations in 40 CFR part 80, subpart D—Reformulated Gasoline. If you have questions regarding the applicability of this action to a particular entity, see the FOR FURTHER **INFORMATION CONTACT** section of this preamble.

B. How can I get copies of this document and other related information?

EPA has established a docket for this action under Docket ID No. EPA-HQ-OAR-2018-0114. All documents in the docket are listed on the www.regulations.gov website. Although listed in the index, some information may not be publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available electronically through www.regulations.gov.

## II. Background

### A. RFG Opt-Out Procedures

The reformulated gasoline (RFG) optout regulations (40 CFR 80.72— Procedures for opting out of the covered

areas) provide the process and criteria for a reasonable transition out of the federal RFG program if a state decides to opt-out.2 These opt-out regulations provide that the governor of the state must submit a petition to the Administrator requesting to opt-out of the federal RFG program. The petition must include specific information on how, if at all, the state has relied on RFG in a proposed or approved state implementation plan (SIP) or plan revision and, if RFG is relied upon, how the SIP will be revised to reflect the state's opt-out from RFG. The opt-out regulations also provide that EPA will notify the state in writing of the Agency's action on the petition and the date the opt-out becomes effective (i.e., the date RFG is no longer required in the affected area) when the petition is approved. The opt-out regulations also provide that EPA will publish a Federal Register document announcing the approval of any opt-out petition and the effective date of such opt-out. If a SIP revision is required, the effective date of EPA's approval of the opt-out can be no less than 90 days from the effective date of EPA's approval of the revision to the SIP that removes RFG as a control measure. See 40 CFR 80.72(c)(7).

## B. Kentucky Opt-In and Opt-Out of RFG for the Northern Kentucky Area

In 1995, Kentucky voluntarily opted Boone, Campbell, and Kenton Counties (the Northern Kentucky Area), into the federal RFG program. Kentucky also opted its portion of the Louisville ozone area (Jefferson County and parts of Bullitt and Oldham Counties) into the federal RFG program; however, this action does not affect the use of RFG in the Kentucky portion of the Louisville ozone area. A current listing of the RFG covered areas and a summary of RFG requirements can be found at 40 CFR 80.70 and on EPA's website at: https:// www.epa.gov/gasoline-standards/ reformulated-gasoline.

On April 18, 2017, Kentucky submitted a petition to the EPA Administrator requesting to opt-out from the federal RFG program for the Northern Kentucky Area.<sup>3</sup> In order to

<sup>&</sup>lt;sup>2</sup>Pursuant to authority under CAA sections 211(c) and (k) and 301(a), EPA promulgated regulations at 40 CFR 80.72 to provide criteria and general procedures for states to opt-out of the RFG program where the state had previously voluntarily opted into the program. The regulations were initially adopted on July 8, 1996 (61 FR 35673) (the RFG "Opt-out Rule"); and were revised on October 20, 1997 (62 FR 54552).

<sup>&</sup>lt;sup>3</sup>The Secretary of Kentucky's Energy and Environment Cabinet submitted the opt-out petition on behalf of the Commonwealth of Kentucky. A copy of the opt-out petition is included in the docket.

fulfill the requirements of the RFG optout regulations and to support its initial request, on September 13, 2017, Kentucky submitted a revision to its maintenance plan for the Northern Kentucky Area to remove the emissions reductions associated with the use of RFG in this area and to demonstrate that the RFG opt-out would not interfere with the area's ability to attain or maintain the 2008 ozone National Ambient Air Quality Standard (NAAQS) and any other NAAQS as required by Clean Air Act (CAA) section 110(l). (See 40 CFR 80.72(b)). EPA published a proposed approval of the SIP revision on February 14, 2018 (83 FR 6496) and a final approval of the SIP revision on April 2, 2018 (83 FR 13872). The final approval of the maintenance plan revision was effective upon publication, on April 2, 2018.

By letter dated April 30, 2018, EPA informed Kentucky of the grant of its petition as required by the RFG Opt-Out Rule. EPA also indicated that the effective date of the RFG opt-out for the Northern Kentucky Area would be July 1, 2018, which is 90 days after the effective date of EPA's approval of the maintenance plan revision and CAA section 110(l) analysis, as required by 40 CFR 80.72(c)(7). On May 16, 2018, EPA published the Federal Register document required by the RFG Opt-Out Rule that informed the public of the July 1, 2018 effective date and indicated that EPA would publish a final rule later to remove the Northern Kentucky Area from the list of RFG covered areas in 40 CFR 80.70 after the effective date of the opt-out (83 FR 22595). The July 1, 2018 opt-out effective date is the date for the removal of the prohibition on the sale of conventional gasoline in the Northern Kentucky Area and applies to retailers, wholesale purchasers-consumers, refiners, importers, and distributors of gasoline.

### III. Action

In this rule, EPA is amending 40 CFR 80.70(j) to reflect that the Northern Kentucky Area (Boone, Campbell, and Kenton counties) is no longer a federal RFG covered area. This final rule merely conforms the applicable regulations with EPA's prior approval of the Kentucky petition.

### IV. Public Participation

EPA is issuing this final action without prior notice and comment. The rulemaking procedures provided in CAA section 307(d) do not apply when the Agency for good cause finds that notice-and-comment procedures are impracticable, unnecessary, or contrary to the public interest pursuant to section

553(b)(B) of the Administrative Procedure Act, 5 U.S.C. 553(b)(B). This is a ministerial action that amends 40 CFR 80.70 to reflect the prior EPA approval of Kentucky's opt-out petition, which was based on criteria in EPA regulations for opting out of the federal RFG program. In the RFG opt-out regulations, EPA established a petition process that would address, on a caseby-case basis, future individual state requests to opt-out of the RFG program. The regulations established clear and objective criteria for EPA to apply that include criteria for when a state's petition is complete and the appropriate transition time for opt-out of the RFG program. Further, at the time of promulgation of those regulations, EPA had explained that the application of these regulatory criteria on a case-bycase basis to individual opt-out requests would not require notice-and-comment rulemaking, either under CAA section 307(d) or the Administrative Procedure Act.

Here, and as explained in the approval action, EPA is simply revising the list of RFG covered areas in 40 CFR 80.70 to conform with EPA's prior approval of Kentucky's request, which was effective on July 1, 2018 (83 FR 22595). That approval was a separate action, which was based on criteria in EPA's regulations for opting out of the federal RFG program and is not the subject of this rule. For these reasons, EPA finds that notice-and-comment procedures under CAA section 307(d)(1) are unnecessary.

This final rule is effective immediately upon publication. Section 553(d)(1) of the Administrative Procedure Act, 5 U.S.C. 553(d)(1), provides that final rules shall not become effective until 30 days after publication in the Federal Register 'except . . . a substantive rule which grants or recognizes an exemption or relieves a restriction." The purpose of this provision is to "give affected parties a reasonable time to adjust their behavior before the final rule takes effect." Omnipoint Corp. v. Fed. Commc'n Comm'n, 78 F.3d 620, 630 (D.C. Cir. 1996); see also United States v. Gavrilovic, 551 F.2d 1099, 1104 (8th Cir. 1977) (quoting legislative history). However, when the agency finalizes an exemption or relieves a restriction, affected parties do not need a reasonable time to adjust because the affect is not adverse. EPA has determined that the finalized rule does not change any regulatory obligations and merely revises the list of covered areas in 40 CFR 80.70 to reflect EPA's prior action on May 16, 2018 which relieved a restriction (the requirement of the

federal RFG program) in the Northern Kentucky Area. For these reasons, this rule will be effective immediately upon publication.

## V. Statutory and Executive Order Reviews

A. Executive Order 12866: Regulatory Planning and Review and Executive Order

13563: Improving Regulation and Regulatory Review

This action is not a significant regulatory action and therefore was not submitted to the Office of Management and Budget (OMB) for review.

B. Executive Order 13771: Reducing Regulations and Controlling Regulatory Costs

This action is considered an Executive Order 13771 deregulatory action. This final rule and EPA's earlier approval of Kentucky's request to opt the three counties in the Northern Kentucky Area out of the federal RFG program provide meaningful burden reduction because it removes the requirements of the federal RFG program for gasoline sold in the Northern Kentucky Area and, as a result, fuel suppliers will no longer be required to sell gasoline that meets the federal RFG standards. Removing the federal RFG requirements will also be beneficial because this action can improve the fungibility of gasoline sold in the State of Kentucky by allowing gasoline sold in the Northern Kentucky Area to be identical to fuel sold in most of Kentucky.

## C. Paperwork Reduction Act (PRA)

This action does not impose any information collection burden under the PRA, because it does not contain any information collection activities.

## D. Regulatory Flexibility Act (RFA)

I certify that this action will not have a significant economic impact on a substantial number of small entities under the RFA. In making this determination, the impact of concern is any significant adverse economic impact on small entities. An agency may certify that a rule will not have a significant economic impact on a substantial number of small entities if the rule relieves regulatory burden, has no net burden or otherwise has a positive economic effect on the small entities subject to the rule. The small entities subject to the requirements of this action are refiners, importers or blenders of gasoline that choose to produce or import gasoline that meets the federal RFG program requirements

for sale in the Northern Kentucky Area, and gasoline distributers and retail stations in the Northern Kentucky Area. EPA previously approved Kentucky's request to opt the three counties in the Northern Kentucky Area out of the federal RFG program remove the federal RFG requirements for gasoline sold in the Northern Kentucky Area as of July 1, 2018. This action merely amends the regulation at 40 CFR 80.70 to reflect the Northern Kentucky Area is no longer a covered area. This action does not impose any requirements or create impacts on small entities beyond those, if any, already required by or resulting from the CAA section 211(k) federal RFG program. We have therefore concluded that this action will have no net regulatory burden for all directly regulated small entities.

## E. Unfunded Mandates Reform Act (UMRA)

This final rule does not contain an unfunded mandate of \$100 million or more as described in UMRA, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. EPA previously approved Kentucky's request to opt the three counties in the Northern Kentucky Area out of the federal RFG program removed a requirement for the sale of federal RFG in the area as provided for in CAA section 211(k) and EPA's regulations at 40 CFR 80.72. This action merely amends the regulation at 40 CFR 80.70 to reflect the Northern Kentucky Area is no longer a covered area.

#### F. Executive Order 13132: Federalism

This action does not have federalism implications. It will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government.

### G. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications, as specified in Executive Order 13175. EPA's earlier approval of Kentucky's request to opt the three counties in the Northern Kentucky Area out of the federal RFG program affected only those refiners, importers or blenders of gasoline that chose to produce or import gasoline that met federal RFG program requirements for sale in the Northern Kentucky Area and gasoline distributers and retail stations in the Area. This action merely amends the regulation at 40 CFR 80.70 to reflect the Northern Kentucky Area is no longer

a covered area. Thus, Executive Order 13175 does not apply to this action.

## H. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern environmental health or safety risks that EPA has reason to believe may disproportionately affect children, per the definition of "covered regulatory action" in section 2-202 of the Executive Order. This action is not subject to Executive Order 13045 because it does not concern an environmental health risk or safety risk. EPA has no reason to believe that this action will disproportionately affect children since Kentucky has provided evidence that opt-out from the federal RFG gasoline program will not interfere with its attainment of the ozone NAAQS, or any other applicable CAA requirement. By separate action, EPA has approved Kentucky's noninterference demonstration regarding its maintenance plan for the 2008 ozone NAAQS, and that Kentucky's opt-out from the federal RFG gasoline program in the Northern Kentucky Area will not interfere with any other NAAQS or CAA requirement.

I. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

This action is not subject to Executive Order 13211 because it is not a significant regulatory action under Executive Order 12866.

## J. National Technology Transfer and Advancement Act (NTTAA)

This rulemaking does not involve technical standards.

K. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

EPA believes the human health or environmental risk addressed by this action will not have potential disproportionately high and adverse human health or environmental effects on minority, low-income or indigenous populations because it does not affect the applicable ozone NAAQS which establish the level of protection provided to human health or the environment. EPA previously approved Kentucky's request to opt the three counties in the Northern Kentucky Area out of the federal RFG program removes the federal RFG gasoline program requirements for the Northern Kentucky

Area. EPA has concluded that the federal RFG opt-out will not cause a measurable increase in ozone concentrations that would result in a violation of any ozone NAAQS including the 2008 ozone NAAOS and the more stringent 2015 ozone NAAQS. Therefore, disproportionately high and adverse human health or environmental effects on minority or low-income populations are not an anticipated result. The results of this evaluation are contained in EPA's proposed and final rules for Kentucky's non-interference demonstration. A copy of Kentucky's April 12, 2017 letter requesting that EPA relax the gasoline RVP standard, and Kentucky's September 13, 2017 letter that included additional technical analysis demonstrating that the opt-out from the federal RFG program would not interfere with continued maintenance of the 2008 ozone NAAOS in the Northern Kentucky Area, or with any other applicable CAA requirement, has been placed in the public docket for this action. This action merely amends the regulation at 40 CFR 80.70 to reflect the Northern Kentucky Area is no longer a covered area.

## L. Congressional Review Act (CRA)

This action is subject to the CRA, and EPA will submit a rule report to each House of the Congress and to the Comptroller of the United States. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

### VI. Legal Authority and Statutory Provisions

The statutory authority for this action is granted to EPA by sections 211(k) and 301(a) of the Clean Air Act, as amended; 42 U.S.C. 7545(h) and 7601(a).

## List of Subjects in 40 CFR Part 80

Environmental protection, Administrative practice and procedures, Air pollution control, Fuel additives, Gasoline, Motor vehicle and motor vehicle engines, Motor vehicle pollution, Penalties, Reporting and recordkeeping requirements.

Dated: December 21, 2018.

## Andrew R. Wheeler,

Acting Administrator.

For the reasons set forth in the preamble, EPA amends 40 CFR part 80 as follows:

## PART 80—REGULATION OF FUELS AND FUEL ADDITIVES

■ 1. The authority citation for part 80 continues to read as follows:

**Authority:** 42 U.S.C. 7414, 7521, 7542, 7545, and 7601(a).

■ 2. Section 80.70 is amended by revising paragraph (j)(3) to read as follows:

### § 80.70 Covered areas.

[FR Doc. 2019–01320 Filed 2–6–19; 8:45 am] BILLING CODE 6560–50–P

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 180

[EPA-HQ-OPP-2018-0163; FRL-9987-42]

# Glycine betaine; Exemption From the Requirement of a Tolerance

**AGENCY:** Environmental Protection Agency (EPA).

ACTION: Final rule.

**SUMMARY:** This regulation establishes an exemption from the requirement of a tolerance for residues of glycine betaine (CAS Reg. No. 107-43-7) when used as an inert ingredient (plant nutrient) in pesticide formulations applied to growing crops only. SciReg, Inc., on behalf of Fine Agrochemicals Ltd, submitted a petition to EPA under the Federal Food, Drug, and Cosmetic Act (FFDCA), requesting establishment of an exemption from the requirement of a tolerance. This regulation eliminates the need to establish a maximum permissible level for residues of glycine betaine.

**DATES:** This regulation is effective February 7, 2019. Objections and requests for hearings must be received on or before April 8, 2019, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2018-0163, is available at http://www.regulations.gov or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional

information about the docket available at http://www.epa.gov/dockets.

#### FOR FURTHER INFORMATION CONTACT:

Michael Goodis, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; main telephone number: (703) 305–7090; email address: RDFRNotices@epa.gov.

#### SUPPLEMENTARY INFORMATION:

### I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 12).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. How can I get electronic access to other related information?

You may access a frequently updated electronic version of 40 CFR part 180 through the Government Printing Office's e-CFR site at http://www.ecfr.gov/cgi-bin/text-idx?&c=ecfr&tpl=/ecfrbrowse/Title40/40tab\_02.tpl.

C. How can I file an objection or hearing request?

Under FFDCA section 408(g), 21 U.S.C. 346a, any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. You must file your objection or request a hearing on this regulation in accordance with the instructions provided in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket ID number EPA-HQ-OPP-2018-0163 in the subject line on the first page of your submission. All objections and requests for a hearing must be in writing, and must be received by the Hearing Clerk on or before April 8, 2019. Addresses for mail and hand delivery of objections and hearing requests are provided in 40 CFR 178.25(b).

In addition to filing an objection or hearing request with the Hearing Clerk as described in 40 CFR part 178, please submit a copy of the filing (excluding any Confidential Business Information (CBI)) for inclusion in the public docket. Information not marked confidential pursuant to 40 CFR part 2 may be disclosed publicly by EPA without prior notice. Submit the non-CBI copy of your objection or hearing request, identified by docket ID number EPA-HQ-OPP-2018-0163, by one of the following methods:

- Federal eRulemaking Portal: http://www.regulations.gov. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be CBI or other information whose disclosure is restricted by statute.
- *Mail*: OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001.
- Hand Delivery: To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at http://www.epa.gov/dockets/contacts.html.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at http://www.epa.gov/dockets.

### II. Petition for Exemption

In the Federal Register of May 18, 2018 (83 FR 23247) (FRL-9976-87), EPA issued a document pursuant to FFDCA section 408, 21 U.S.C. 346a, announcing the filing of a pesticide petition (PP IN-11101) by SciReg, Inc., 12733 Director's Loop, Woodbridge, VA 22192 on behalf of Fine Agrochemicals Ltd. The petition requested that 40 CFR 180.920 be amended by establishing an exemption from the requirement of a tolerance for residues of glycine betaine (CAS Reg. No. 107-43-7) when used as an inert ingredient (plant nutrient) in pesticide formulations applied to growing crops. That document referenced a summary of the petition prepared by SciReg, Inc., on behalf of Fine Agrochemicals Ltd., the petitioner, which is available in the docket, http:// www.regulations.gov. There were no comments received in response to the notice of filing.

## III. Inert Ingredient Definition

Inert ingredients are all ingredients that are not active ingredients as defined in 40 CFR 153.125 and include, but are not limited to, the following types of ingredients (except when they have a pesticidal efficacy of their own):

Solvents such as alcohols and hydrocarbons; surfactants such as polyoxyethylene polymers and fatty acids; carriers such as clay and diatomaceous earth; thickeners such as
