Title: Annual Stress Test Rule.

OMB Control No.: 1557–0311.

Description: Section 165(i)(2) of the Dodd-Frank Wall Street Reform and Consumer Protection Act requires certain financial companies, including national banks and federal savings associations, to conduct annual stress tests² and requires the primary financial regulatory agency³ of those financial companies to issue regulations implementing the stress test requirements.⁴

Twelve CFR 46.6(a) specifies the calculations of the potential impact on capital that must be made during each quarter of a planning horizon. Section 46.6(c)(1) requires the senior management of each covered institution to establish and maintain a system of controls, oversight, and documentation, including policies and procedures that, at a minimum, describe the covered institution’s stress test practices and methodologies and processes for updating the covered institution’s stress test practices. Section 46.6(c)(2) provides that the board of directors of the covered institution shall approve and review these policies and procedures no less than annually and provide the board of directors and senior management with a summary of the stress test results.

Section 46.7 provides that each covered institution shall report to the OCC and to the Board of Governors of the Federal Reserve System annually the results of the stress test in the time, manner and form specified by the OCC.

Section 46.8 requires that a covered institution publish a summary of the results of its annual stress tests on its website or in any other forum that is reasonably accessible to the public. The summary must include a description of the types of risks included in the stress test, a summary description of the methodologies used in the stress test, estimates of aggregate losses, pre-provision net revenue, provisions for loan and lease losses, net income, and

pro forma capital ratios and an explanation of the most significant causes of the changes in regulatory capital ratios. The summary also must reflect, for estimates of aggregate losses, pre-provision net revenue, provisions for loan and lease losses, the estimated cumulative effects and estimated capital ratios, net income, and pro forma capital ratios (including regulatory and any other capital ratios specified by the OCC) at the end of the planning horizon, under the severely adverse scenario.
