

disseminating it to policymakers and the public so that participants in those markets can make more informed, and thus more efficient, choices. Research based on the NLSY97 contributes to the formation of national policy in the areas of education, training, work experience, fertility, income, and program participation. In addition to the reports that the BLS produces based on data from the NLSY97, members of the academic community publish articles and reports based on NLSY97 data for the DOL and other funding agencies. To date, approximately 655 articles examining NLSY97 data have been published in scholarly journals. The survey design provides data gathered from the same respondents over time to form the only dataset that contains this type of information for this important population group. Without the collection of these data, an accurate longitudinal dataset could not be provided to researchers and policymakers, thus adversely affecting the DOL's ability to perform its policy- and report-making activities.

II. Current Action

The BLS seeks Office of Management and Budget approval to conduct round 19 of biennial interviews of the NLSY97. Respondents of the NLSY97 will undergo an interview of approximately 70 minutes during which they will answer questions about schooling and labor market experiences, family relationships, and community background.

During the fielding period for the main round 19 interviews, no more than 2 percent of respondents will be asked to participate in a brief validation

interview a few weeks after the initial interview. The purpose of the validation interview is to verify that the initial interview took place as the interviewer reported and to assess the data quality of selected questionnaire items.

The BLS plans to record randomly selected segments of the main interviews during round 19. Recording interviews helps the BLS and its contractors to ensure that the interviews actually took place and interviewers are reading the questions exactly as worded and entering the responses properly. Recording also helps to identify parts of the interview that might be causing problems or misunderstanding for interviewers or respondents. Each respondent will be informed that the interview may be recorded for quality control, testing, and training purposes. If the respondent objects to the recording of the interview, the interviewer will confirm to the respondent that the interview will not be recorded and then proceed with the interview.

Round 19 will be a predominantly telephone survey. We anticipate that approximately 85 percent of interviews will be completed by telephone, with the remaining interviews being conducted in person.

The round 19 questionnaire will resemble the round 18 questionnaire with few modifications. New questions for the round 19 questionnaire include questions on expectations of working in the future, on tax filing, on chronic pain, on the use of painkillers, and on device ownership. In addition, we have made attempts to streamline the questionnaire so that it will be shorter and less burdensome for respondents.

To this end, fewer questions will be asked about household members, college attendance and experience, and financial insecurity. Questions on wage bargaining and using the internet for job search will be dropped from Round 19. Questions used to classify jobs as regular, self-employed, or non-traditional have been streamlined.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
 - Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
 - Enhance the quality, utility, and clarity of the information to be collected.
 - Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
- Title of Collection:* National Longitudinal Survey of Youth 1997.
OMB Number: 1220-0157.
Type of Review: Revision of a currently approved collection.
Affected Public: Individuals or households.

Form	Total respondents	Frequency	Total responses	Average time per response (minutes)	Estimated total burden (hours)
Main NLSY97: September 2017—May 2018	6520	One-time	6520	70	7606.7
Validation interview: October 2017—June 2018 ..	130	One-time	130	4	8.7
Totals *	6520		6650		7616

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 5th day of February 2019.
Mark Staniorski,
Division Chief, Division of Management Systems, Bureau of Labor Statistics.

SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion

The Occupational Safety and Health Administration is providing notice that QPS Evaluation Services, Inc., (QPS) is applying for expansion of its current recognition as a NRTL. QPS requests the addition of two test standards to its NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products

covered within its scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by its applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes an application by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding. In the second notice, the agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including QPS, which details the NRTL's scope of recognition. These pages are available from the OSHA website at: <https://www.osha.gov/dts/otpca/nrtl/qps.html>.

QPS currently has one facility (site) recognized by OSHA for product testing and certification, with its headquarters located at: QPS Evaluation Services, Inc. 81 Kelfield Street, Unit 8 Toronto, Ontario M9W 5A3 Canada. A complete list of QPS sites recognized by OSHA is available at <https://www.osha.gov/dts/otpca/nrtl/qps.html>.

II. General Background on the Application

QPS submitted two applications, one dated January 16, 2017 (OSHA-2010-0046-0010), and another date June 23, 2017 (OSHA-2010-0046-0011), to expand its recognition to include two additional test standards. OSHA staff performed detailed analyses of the application packets and other pertinent information. OSHA did not perform any on-site reviews in relation to these applications.

Table 1, below, lists the appropriate test standards found in QPS's application for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN QPS’S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 471	Standard for Commercial Refrigerators and Freezers.
UL 62368-1	Standard for Audio/Video Information and Communication Technology Equipment—Part 1 Safety Requirements.

III. Preliminary Findings on the Application

QPS submitted acceptable applications for expansion of its scope of recognition. OSHA’s review of the application files and related material indicate that QPS can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of these two test standards for NRTL testing and certification listed above. This preliminary finding does not constitute an interim or temporary approval of QPS’s applications.

OSHA welcomes public comment as to whether QPS meets the requirements of 29 CFR 1910.7 for expansion of its recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer time period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, listed in “ADDRESSES.” These materials also are available online at <https://www.regulations.gov> under Docket No. OSHA–2010–0046.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, make a recommendation to the Assistant Secretary for Occupational Safety and Health on whether to grant QPS’s applications for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the applications. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of this final decision in the **Federal Register**.

Authority and Signature

Loren Sweatt, Deputy Assistant Secretary of Labor for Occupational

Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor’s Order No. 1–2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on February 5, 2019.

Loren Sweatt,

Acting Assistant Secretary of Labor for Occupational Safety and Health.
