k. *Description of Request:* Cube Yadkin requests Commission approval for an amendment to the license for the Yadkin Hydroelectric Project. The 2016 project license authorized modifications to turbine/generator units at High Rock, Tuckertown, Narrows, and Falls developments. Cube Yadkin initiated unit modifications at High Rock, and conducted further testing at the other three developments. Cube Yadkin determined that the Tuckertown, Narrows, and Falls facilities are in good condition, and modifying these would not provide any benefit. Therefore, Cube Hydro proposes to keep the units at Tuckertown, Narrows, and Falls developments as is and not make any modifications. Cube Yadkin does not anticipate any environmental impacts as a result of the proposed amendment.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2808-017]

KEI (Maine) Power Management (III) LLC; Notice of Availability of Final Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for subsequent license for the Barker's Mill Hydroelectric Project, located on the Little Androscoggin River in Androscoggin County, Maine, and has prepared a Final Environmental Assessment (FEA) for the project. The project does not occupy federal land.

The FEA contains Commission staff's analysis of the potential environmental effects of the project, and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the FEA is available for review at the Commission in the Public Reference Room, or may be viewed on the Commission's website at <http://www.ferc.gov>, using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document.
