B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, NRC Form 396, "Certification of Medical Examination by Facility Licensee." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on October 10, 2018, 83 FR 50963.

1. *The title of the information collection:* NRC Form 396, "Certification of Medical Examination by Facility Licensee."

2. *OMB approval number:* 3150-0024.

3. *Type of submission:* Extension.

4. *The form number if applicable:* NRC Form 396.

5. *How often the collection is required or requested:* Upon application for an initial or upgrade license; every six years for the renewal of an operator or senior operator license, and notices of disability that occur during licensed tenure.

6. *Who will be required or asked to respond:* Facility licensees who are tasked with certifying the medical fitness or operator licensee.

7. *The estimated number of annual responses:* 1,882.

8. *The estimated number of annual respondents:* 125.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 2,196.25 hours (1,757 Reporting hours plus 439.25 Recordkeeping hours).

10. *Abstract:* NRC Form 396 is used to transmit information to the NRC regarding the medical condition of applicants for initial operator licenses or renewal of operator licenses and for the maintenance of medical records for all licensed operators. The information is used to determine whether the physical condition and general health of applicants for operator licensees is such that the applicant would not be expected to cause operational errors and endanger public health and safety.

Dated at Rockville, Maryland, this 11th day of February 2019.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not

routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, NRC Form 664, "General Licensee Registration." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on September 7, 2018 (83 FR 45471).

1. *The title of the information collection:* NRC Form 664, "General Licensee Registration."

2. *OMB approval number:* 3150-0198.

3. *Type of submission:* Extension.

4. *The form number if applicable:* NRC Form 664.

5. *How often the collection is required or requested:* Annually.

6. *Who will be required or asked to respond:* General Licensees of the NRC who possess certain generally licensed devices subject to annual registration authorized pursuant to section 31.5 of *Title 10 of the Code of Federal Regulations* (10 CFR).

7. *The estimated number of annual responses:* 525.

8. *The estimated number of annual respondents:* 525.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 175 hours (525 annual responses \times $\frac{1}{3}$ hours).

10. *Abstract:* NRC Form 664 is used by NRC general licensees to make reports regarding certain generally licensed devices subject to annual registration. The registration program allows NRC to better track general licensees, so that they can be contacted or inspected as necessary, and to make sure that generally licensed devices can be identified even if lost or damaged.

Also, the registration program ensures that general licensees are aware of and understand the requirements for the possession, use, and disposal of devices containing byproduct material. Greater awareness helps to ensure that general licensees will comply with the regulatory requirements for proper handling and disposal of generally licensed devices and would reduce the potential for incidents that could result in unnecessary radiation exposure to the public and contamination of property.

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736.

Extension:

Regulation S-ID, SEC File No. 270-644, OMB Control No. 3235-0692

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Regulation S-ID (17 CFR 248), including the information collection requirements thereunder, is designed to better protect investors from the risks of identity theft. Under Regulation S-ID, SEC-regulated entities are required to develop and implement reasonable policies and procedures to identify, detect, and respond to relevant red flags (the "Identity Theft Red Flags Rules") and, in the case of entities that issue credit or debit cards, to assess the validity of, and communicate with cardholders regarding, address changes. Section 248.201 of Regulation S-ID includes the following information collection requirements for each SEC-regulated entity that qualifies as a "financial institution" or "creditor" under Regulation S-ID and that offers or

maintains covered accounts: (i) Creation and periodic updating of an identity theft prevention program ("Program") that is approved by the board of directors, an appropriate committee thereof, or a designated senior management employee; (ii) periodic staff reporting to the board of directors on compliance with the Identity Theft Red Flags Rules and related guidelines; and (iii) training of staff to implement the Program. Section 248.202 of Regulation S-ID includes the following information collection requirements for each SEC-regulated entity that is a credit or debit card issuer: (i) Establishment of policies and procedures that assess the validity of a change of address notification if a request for an additional or replacement card on the account follows soon after the address change; and (ii) notification of a cardholder, before issuance of an additional or replacement card, at the previous address or through some other previously agreed-upon form of communication, or alternatively, assessment of the validity of the address change request through the entity's established policies and procedures.

SEC staff estimates of the hour burdens associated with section 248.201 under Regulation S-ID include the one-time burden of complying with this section for newly-formed SEC-regulated entities, as well as the ongoing costs of compliance for all SEC-regulated entities.

All newly-formed financial institutions and creditors would be required to conduct an initial assessment of covered accounts, which SEC staff estimates would entail a one-time burden of 2 hours. Staff estimates that this burden would result in a cost of \$802 to each newly-formed financial institution or creditor.¹ To the extent a financial institution or creditor offers or maintains covered accounts, SEC staff estimates that the financial institution or creditor also would also incur a one-time burden of 25 hours to develop and obtain board approval of a Program, and a one-time burden of 4 hours to train the financial institution's or creditor's staff, for a total of 29 additional burden hours. Staff estimates that these burdens would result in additional costs of \$14,266 for each financial institution or creditor that offers or maintains covered accounts.²

¹ This estimate is based on the following calculation: 2 hours \times \$401 (hourly rate for internal counsel) = \$802. See *infra* note 2 (discussing the methodology for estimating the hourly rate for internal counsel).

² SEC staff estimates that, of the 29 hours incurred to develop and obtain board approval of a Program
