

recommended further refinements to the Order and the handling regulations to better meet current marketing needs. However, the industry did not petition to have the Order reactivated by the end of the suspension period. Therefore, this alternative was rejected, and AMS is terminating the Order.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the information collection requirements being terminated were previously approved by OMB and assigned OMB No. 0581-0178, Fruit, Vegetable and Specialty Crops. Termination of the reporting requirements under the Order will reduce the reporting and recordkeeping burden on Irish potato handlers in Southeastern states and should further reduce industry expenses.

USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

AMS is committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <https://www.ams.usda.gov/rules-regulations/moa/small-businesses>. Any questions about the compliance guide should be sent to Richard Lower at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

A proposed rule inviting comments regarding the termination of the Order was published in the **Federal Register** on July 25, 2018 (83 FR 35151). USDA distributed the rule to Virginia and North Carolina potato associations and other Southeastern potato industry members. In addition, the rule was made available on the internet by USDA and the Office of the Federal Register. The rule provided a 60-day comment period, which ended on September 24, 2018. One comment was received in support of the termination.

Based on the foregoing, and pursuant to § 608c(16)(A) of the Act and § 953.66 of the Order, it is hereby found that Federal Marketing Order 953 regulating the handling of Irish potatoes grown in Southeastern states does not tend to effectuate the declared policy of the Act and is therefore terminated.

Section 608c(16)(A) of the Act requires USDA to notify Congress at least 60 days before terminating a Federal marketing order. Congress was so notified on October 24, 2018.

List of Subjects in 7 CFR Part 953

Marketing agreements, Potatoes, Reporting and recordkeeping requirements.

PART 953—[REMOVED]

■ For the reasons set forth in the preamble, under the authority of 7 U.S.C. 601–674, 7 CFR part 953 is removed.

Dated: February 12, 2019.

Bruce Summers,

Administrator, Agricultural Marketing Service.

BILLING CODE 3410-02-P

NUCLEAR REGULATORY COMMISSION

10 CFR Part 72

[NRC-2018-0220]

RIN 3150-AK17

List of Approved Spent Fuel Storage Casks: NAC International Multi-Purpose Canister Storage System, Certificate of Compliance No. 1025, Amendment Nos. 7 and 8

AGENCY: Nuclear Regulatory Commission.

ACTION: Direct final rule; confirmation of effective date.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is confirming the effective date of March 4, 2019, for the direct final rule that was published in the **Federal Register** on December 18, 2018. This direct final rule amended the NRC's spent fuel storage regulations by revising the "List of approved spent fuel storage casks" to include Amendment Nos. 7 and 8 to Certificate of Compliance No. 1025 for the NAC International Multi-Purpose Canister (NAC-MPC) Storage System.

DATES: *Effective Date:* The effective date of March 4, 2019, for the direct final rule published December 18, 2018 (83 FR 64729), is confirmed.

ADDRESSES: Please refer to Docket ID NRC-2018-0220 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0220. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For

technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The proposed amendment to the certificate, the proposed changes to the technical specifications, and the preliminary safety evaluation report are available in ADAMS under Accession No. ML18255A021. The final amendments to the certificate, final changes to the technical specifications, and final safety evaluation reports can be viewed in ADAMS under Accession Nos. ML19038A249 for Amendment No. 7 and ML19039A088 for Amendment No. 8.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Bernard H. White, Office of Nuclear Material Safety and Safeguards; telephone: 301-415-6577; email: Bernard.White@nrc.gov or Gregory Trussell, Office of Nuclear Material Safety and Safeguards; telephone: 301-415-6244; email: Gregory.Trussell@nrc.gov. Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION: On December 18, 2018 (83 FR 64729), the NRC published a direct final rule amending its regulations in part 72 of title 10 of the *Code of Federal Regulations* by revising the "List of approved spent fuel storage casks" to include Amendment Nos. 7 and 8 to Certificate of Compliance No. 1025 for the NAC-MPC Storage System. Amendment No. 7 revises the technical specifications to eliminate the requirements for the heat removal system to be operable for La Crosse Boiling Water Reactor spent fuel stored in the NAC-MPC because convective cooling is not required, and to eliminate duplicative requirements. In addition, Amendment No. 8 removes duplicative surveillance requirements in the technical specifications because these requirements are already required by the revised Technical Specification A 3.1.6,

“CONCRETE CASK Heat Removal System.”

In the direct final rule, the NRC stated that if no significant adverse comments were received, the direct final rule would become effective on March 4, 2019. As described more fully in the direct final rule, a significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule’s underlying premise or approach, or would be ineffective or unacceptable without a change. Because no significant adverse comments were received, the direct final rule will become effective as scheduled.

Dated at Rockville, Maryland, this 12th day of February 2019.

For the Nuclear Regulatory Commission.

Cindy K. Bladey,

Chief, Regulatory Analysis and Rulemaking Support Branch, Division of Rulemaking, Office of Nuclear Material Safety and Safeguards.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 72

[NRC-2018-0221]

RIN 3150-AK18

List of Approved Spent Fuel Storage Casks: Holtec International HI-STORM 100 Multipurpose Canister Cask System, Certificate of Compliance No. 1014, Amendment Nos. 11 and 12

AGENCY: Nuclear Regulatory Commission.

ACTION: Direct final rule; confirmation of effective date.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is confirming the effective date of February 25, 2019, for the direct final rule that was published in the **Federal Register** on December 12, 2018. This direct final rule amended the NRC’s spent fuel storage regulations by revising the Holtec International HI-STORM 100 Multipurpose Canister Cask System (HI-STORM 100 System) listing within the “List of approved spent fuel storage casks” to include Amendment Nos. 11 and 12 to Certificate of Compliance No. 1014. Amendment Nos. 11 and 12 revise multiple items in the technical specifications for multi-purpose canister models listed under Certificate of Compliance No. 1014; most of these revisions involve changes to the authorized contents. In addition,

Amendment No. 11 makes several other editorial changes.

DATES: The effective date of February 25, 2019, for the direct final rule published December 12, 2018 (83 FR 63794), is confirmed.

ADDRESSES: Please refer to Docket ID NRC-2018-0221 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0221. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The proposed amendments to the certificate, the proposed changes to the technical specifications, and the preliminary safety evaluation reports are available in ADAMS for Amendment No. 11 under Accession No. ML18141A560 and Amendment No. 12 under Accession No. ML18087A055. The final amendments to the certificate, final changes to the technical specifications, and final safety evaluation reports can also be viewed in ADAMS under Accession No. ML18355A369.

- *NRC’s PDR:* You may examine and purchase copies of public documents at the NRC’s PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Yen-Ju Chen, Office of Nuclear Material Safety and Safeguards; telephone: 301-415-1018; email: Yen-Ju.Chen@nrc.gov or Vanessa Cox, Office of Nuclear Material Safety and Safeguards; telephone: 301-415-8342; email: Vanessa.Cox@nrc.gov. Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION: On December 12, 2018 (83 FR 63794), the NRC published a direct final rule

amending its regulations in part 72 of title 10 of the *Code of Federal Regulations* (10 CFR) to the HI-STORM 100 System listing within the “List of approved spent fuel storage casks” to include Amendment Nos. 11 and 12 to Certificate of Compliance No. 1014. Amendment Nos. 11 and 12 revise multiple items in the technical specifications for multi-purpose canister models listed under Certificate of Compliance No. 1014; most of these revisions involve changes to the authorized contents. In addition, Amendment No. 11 makes several other editorial changes.

In the direct final rule, the NRC stated that if no significant adverse comments were received, the direct final rule would become effective on February 25, 2019. As described more fully in the direct final rule, a significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule’s underlying premise or approach, or would be ineffective or unacceptable without a change.

The NRC received two comments and has determined that they are not significant adverse comments. One comment questioned the short-term economic gains. As this rulemaking only addressed changes to the technical specifications for dry shielded canisters used to store nuclear waste on-site, the NRC determined this comment to be out of scope of this direct final rule. The second comment concerned specific casks used at a reactor site, a direct final rule for another storage cask, and another cask that is the subject of an NRC enforcement action. These issues are also outside the scope of this direct final rule.

The second commenter also stated that the environmental assessment for this direct final rule did not consider the effects of certain natural phenomena. Pursuant to 10 CFR part 72, the NRC requires that an applicant for a spent fuel storage system provide the design bases, design criteria, and the margins of safety for the system in its safety analysis. The design bases, design criteria, and safety margins include consideration of applicable natural phenomena. In its review, the NRC determined that the cask system is designed to mitigate the effects of design basis accidents, including human-induced and the most severe natural phenomena. Specifically, in considering design requirements for each accident condition, the NRC evaluates whether the design would prevent loss of confinement, shielding, and criticality control in the event of an accident. The NRC identified a broad range of natural
