Appendix I

Scope of the Investigation

The scope of this investigation is certain on-the-road steel wheels, discs, and rims for tubeless tires with a nominal wheel diameter of 12 inches to 16.5 inches, regardless of width. Certain

on-the-road steel wheels with a nominal wheel diameter of 12 inches to 16.5 inches within the scope are generally for road and highway trailers and other towable equipment, including, *inter alia*, utility trailers, cargo trailers, horse trailers, boat trailers, recreational trailers, and towable mobile homes. The standard widths of certain on-the-road steel wheels are 4 inches, 4.5 inches, 5 inches, 5.5 inches, 6 inches, and 6.5 inches, but all certain on-the-road steel wheels, regardless of width, are covered by the scope.

The scope includes rims and discs for certain on-the-road steel wheels, whether imported as an assembly, unassembled, or separately. The scope includes certain on-the-road steel wheels regardless of steel composition, whether clad or not clad, whether finished or not finished, and whether coated or uncoated. The scope also includes certain on-the-road steel wheels with discs in either a "hub-piloted" or "stud-piloted" mounting configuration, though the stud-piloted configuration is most common in the size range covered.

All on-the-road wheels sold in the United States must meet Standard 110 or 120 of the National Highway Traffic Safety Administration's (NHTSA) Federal Motor Vehicle Safety Standards, which requires a rim marking, such as the "DOT" symbol, indicating compliance with applicable motor vehicle standards. *See* 49 CFR 571.110 and § 571.120. The scope includes certain on-the-road steel wheels imported with or without NHTSA's required markings.

Certain on-the-road steel wheels imported as an assembly with a tire mounted on the wheel and/or with a valve stem or rims imported as an assembly with a tire mounted on the rim and/or with a valve stem are included in the scope of this investigation. However, if the steel wheels or rims are imported as an assembly with a tire mounted on the wheel or rim and/or with a valve stem attached, the tire and/or valve stem is not covered by the scope.

Excluded from this scope are the following:

- (1) steel wheels for use with tube-type tires; such tires use multi piece rims, which are two-piece and three-piece assemblies and require the use of an inner tube;
- (2) aluminum wheels;
- (3) certain on-the-road steel wheels that are coated entirely with chrome; and
- (4) steel wheels that do not meet Standard 110 or 120 of the NHTSA's requirements other than the rim

marking requirements found in 49 CFR 571.110S4.4.2 and § 571.120S5.2.

Certain on-the-road steel wheels subject to this investigation are properly classifiable under the following category of the Harmonized Tariff Schedule of the United States (HTSUS):

8716.90.5035 which covers the exact product covered by the scope whether entered as an assembled wheel or in components. Certain on-the-road steel wheels entered with a tire mounted on them may be entered under HTSUS 8716.90.5059 (Trailers and semi-trailers; other vehicles, not mechanically propelled, parts, wheels, other, wheels with other tires) (a category that will be broader than what is covered by the scope). While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the subject merchandise is dispositive.

Certain Corrosion-Resistant Steel Products From Taiwan: Amended Final Results of Antidumping Duty Administrative Review; 2016–2017

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce is amending the final results of the

administrative review of the antidumping duty order on certain corrosion-resistant steel products (CORE) from Taiwan to correct a ministerial error.

DATES: Applicable February 25, 2019.

FOR FURTHER INFORMATION CONTACT: Emily Halle, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-0176.

SUPPLEMENTARY INFORMATION:

Background

On December 17, 2018, the Department of Commerce (Commerce) published its *Final Results* of the first administrative review of the antidumping duty order on CORE from Taiwan.¹ On December 21, 2018, AK Steel Corporation, the petitioner in this administrative review, submitted comments alleging ministerial errors in Commerce's *Final Results*.² Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018, through the resumption of operations on January 29, 2019.³ The revised deadline for the amended final results decision is now February 25, 2019.

Legal Framework

A ministerial error, as defined in section 751(h) of the Tariff Act of 1930, as amended (the Act), includes "errors in addition, subtraction, or other arithmetic function, clerical errors resulting from inaccurate copying, duplication, or the like, and any other type of unintentional error which the administering authority considers ministerial."⁴ With respect to final results, 19 CFR 351.224(e) provides that Commerce "will analyze any comments received and, if appropriate, correct any

ministerial error by amending . . . the final results of review"

Amendment to Final Results

Commerce committed an inadvertent error within the meaning of section 735(e) of the Act and 19 CFR 351.224(f)⁵ with respect to the U.S. credit expense calculation for Yieh Phui Enterprise Co., Ltd. (YP) and Synn Industrial Co., Ltd. (Synn) (collectively, YP/Synn).⁶ Therefore, pursuant to 19 CFR 351.224(e), Commerce is amending the *Final Results* to reflect the correction of this ministerial error in the calculation of the final margin assigned to YP/Synn, which changes from 2.22 percent to 2.24 percent.⁷ Furthermore, we are revising the review-specific average rate applicable to Chung Hung Steel Corporation, which was not selected for individual examination in this administrative review, as it was based, in part, on the weighted-average dumping margin assigned to YP/Synn.

Amended Final Results of the Review

We determine that, for the period of June 2, 2016, through June 30, 2017, the following weighted-average dumping margins exist:

Exporter/producer	Weighted-average dumping margin (percent)
Chung Hung Steel Corporation ..	⁸ 2.60
Yieh Phui Enterprise Co., Ltd. and Synn Industrial Co., Ltd ...	2.24

Disclosure

We intend to disclose the calculation performed for these amended final results in accordance with 19 CFR 351.224(b).

Antidumping Duty Assessment

Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review.

In accordance with Commerce's "automatic assessment" practice, for entries of subject merchandise during

the POR produced by YP/Synn for which it did not know that the merchandise was destined for the United States, we will instruct CBP to liquidate those entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

We intend to issue instructions to CBP 15 days after the publication date of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective retroactively for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the December 17, 2018, the date of publication of the *Final Results* of this administrative review, as provided for by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for YP/Synn and Chung Hung will be equal to the weighted-average dumping margins established in these amended final results of review; (2) for previously reviewed or investigated companies, including those for which Commerce may have determined they had no shipments during the POR, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review or another completed segment of this proceeding, but the manufacturer is, then the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previously completed segment of this proceeding, then the cash deposit rate will be the "all-others" rate of 10.34 percent established in the less-than-fair-value investigation.⁹ These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of

Administrative Protective Order
