

site inspection of a project and low-income units or low-income certification review will occur. Notice of more than 15 days, however, may be reasonable in extraordinary circumstances that are beyond an Agency's control and that prevent an Agency from carrying out within 15 days an on-site inspection or low-income certification review.

Extraordinary circumstances include, but are not limited to, natural disasters and severe weather conditions. In the event of extraordinary circumstances that result in a reasonable-notice period longer than 15 days, an Agency must select the relevant units and conduct the same-day on-site inspection or low-income certification review as soon as practicable.

(4) *Alternative means of conducting on-site inspections—Use of the REAC protocol.* An Agency may satisfy the requirements of paragraphs (c)(2)(ii) and (iii) of this section if the inspection is performed under the Department of Housing and Urban Development (HUD) Real Estate Assessment Center (REAC) protocol and the inspection satisfies the following requirements:

(i) Both vacant and occupied low-income units in a low-income housing project are included in the population of units from which units are selected for inspection;

(ii) The inspection complies with the procedural and substantive requirements of the REAC protocol, including the requirements of the most recent REAC Uniform Physical Condition Standards (UPCS) inspection software, or software accepted by HUD;

(iii) The inspection is performed by HUD or HUD-Certified REAC inspectors;

(iv) The inspection results are sent to HUD, the results are reviewed and scored within HUD's secure system without any involvement of the inspector who conducted the inspection, and HUD makes its inspection report available.

(5) *HUD Inspections that comply with the requirements of the REAC Protocol.*

If, consistent with the requirements of paragraph (c)(2)(iii)(4) of this section, an Agency conducts on-site inspections under the REAC protocol, then—

(i) Paragraph (c)(2)(iii)(A) of this section is applied as if it did not contain the word "all";

(ii) The number of low-income units required to be inspected under the REAC protocol satisfies the requirements of paragraph (c)(2)(iii)(B) of this section concerning the number of low-income units an Agency must inspect; and

(iii) The manner in which the low-income units are selected for inspection

under the REAC protocol satisfies the requirements of paragraph (c)(2)(iii)(C) of this section.

(6) *Income Certification Requirements for HUD Inspections that comply with the requirements of the REAC Protocol.* An agency that conducts on-site inspections under the REAC protocol is not excused from reviewing low-income certifications in accordance with paragraphs (c)(2)(ii) and (iii) of this section.

(7) *Applicability of reasonable notice limitation when the same units are chosen for inspection and file review.* If the Agency chooses to select the same units for on-site inspections and low-income certification review, the Agency must complete both the inspections and review before the end of the day on which the units are selected. See paragraph (c)(2)(iii)(C)(1) and (2) of this section.

(D) *Method of low-income certification review.* The Agency may review the low-income certifications wherever the owner maintains or stores the records (either on-site or off-site).

(3) *Frequency and form of certification.* A monitoring procedure must require that the certifications and reviews of § 1.42–5(c)(1) and (c)(2)(i) be made at least annually covering each year of the 15-year compliance period under section 42(i)(1). The certifications must be made under penalties of perjury. A monitoring procedure may require certifications and reviews more frequently than every 12 months, provided that all months within each 12-month period are subject to certification.

(h) \* \* \*

(2) *Applicability dates.* The requirements in paragraphs (c)(2)(ii) and (iii) and (c)(3) of this section apply beginning on February 26, 2019. A state housing credit agency is allowed a reasonable period of time to amend its qualified allocation plan, but must amend its qualified allocation plan no later than December 31, 2020.

#### Waxes and Waxy Substances, Rice Bran, Oxidized; Exemption From the Requirement of a Tolerance

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** This regulation establishes an exemption from the requirement of a tolerance for residues of waxes and waxy substances, rice bran, oxidized when used as an inert ingredient in pesticide formulations applied to growing crops and raw agricultural commodities after harvest, on animals, and in antimicrobial formulations (food-contact surface sanitizing solutions).
