Abstract: In response to the FY2008 Consolidated Appropriations Act (H.R. 2764; Pub. L. 110-161) and under authority of the Clean Air Act, the EPA finalized the Mandatory Reporting of Greenhouse Gases Rule (GHG Reporting Rule) (74 FR 56260; October 30, 2009). The GHG Reporting Rule, which became effective on December 29, 2009, establishes reporting requirements for certain large facilities and suppliers. It does not require control of greenhouse gases. Instead, it requires that sources emitting GHGs above certain threshold levels of carbon dioxide equivalent (CO₂e) monitor and report emissions.

Subsequent rules have promulgated requirements for additional facilities, suppliers, and mobile sources; provided clarification and corrections to existing requirements; finalized confidentiality business information (CBI) determinations, amended recordkeeping requirements, and implemented an alternative verification approach. Collectively, the GHG Reporting Rule and its associated rulemakings are referred to as the Greenhouse Gas Reporting Program (GHGRP).

The purpose for this ICR is to renew and revise the GHG Reporting Rule ICR to update the burdens and costs.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are suppliers of certain products that will emit GHG when released, combusted, or oxidized; facilities in certain industrial categories that emit greenhouse gases; and facilities that emit 25,000 metric tons or more of carbon dioxide equivalent (CO₂e) per year.

Respondent's obligation to respond: Mandatory (Section 114 of the Clean Air Act provides EPA authority to require the information mandated by the Greenhouse Gas Reporting Program because such data will inform and are relevant to future policy decisions).

Estimated number of respondents: 13,654 (total).

Frequency of response: Annual.

Total estimated burden: 726,577 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$86,958,000 (per year), includes \$28,802,000 annualized capital or operation and maintenance costs.
