

F. Federal Award Administration

1. Federal Award Notice

The NCUA will notify each Applicant of its funding decision by email. Applicants that are approved for funding will also receive instructions on how to proceed with disbursement of the award.

2. Administrative and National Policy Requirements

i. *Loan Agreement*: Each Participating Credit Union under this NOFO must enter into an Agreement with the NCUA before the NCUA will disburse the award funds. The Agreement documents include, for example, a promissory note, loan agreement, repayment schedule, and security agreement (if applicable). The Agreement will include the terms and conditions of funding, including but not limited to the: (i) award amount; (ii) interest rate; (iii) repayment requirements; (iv) accounting treatment; (v) impact measures; and (vi) reporting requirements.

ii. *Failure to Sign Agreement*: The NCUA, in its sole discretion, may rescind an award if the Applicant fails to sign and return the agreement or any other requested documentation, within the time specified by the NCUA.

iii. *Multiple Disbursements*: The NCUA may determine, in its sole discretion, to fund a loan in multiple disbursements. In such cases, the process for disbursement will be specified by the NCUA in the Loan Agreement.

3. Reporting

The reporting requirements are more fully described in 12 CFR 705.9. Annually, each Participating Credit Union will submit a report to the NCUA. The report will address the Participating Credit Union's use of the loan funds; the impact of funding; and explanation of any failure to meet objectives for use of proceeds, outcome, or impact. The NCUA, in its sole discretion, may modify these requirements. However, such reporting requirements will be modified only after notice to affected credit unions.

i. *Report Form*: Applicable credit unions will be notified regarding the submission of the report form. A Participating Credit Union is responsible for timely and complete submission of the report. The NCUA will use such information to monitor each Participating Credit Union's compliance with the requirements of its loan agreement and to assess the impact of the CDRLF loan.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at <http://www.regulations.gov> as well as enters the comment submissions into ADAMS.

The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Additional Information

The NRC is issuing for public comment a DG in the NRC's "Regulatory Guide" series. This series was developed to describe and make available to the public information regarding methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific issues or postulated events, and data that the staff needs in its review of applications for permits and licenses.

The DG, entitled, "Seismic Qualification of Electrical and Active Mechanical Equipment and Functional Qualification of Active Mechanical Equipment for Nuclear Power Plants," is proposed revision 4 of RG 1.100 of the same name. It is temporarily identified by its task number, DG–1328. The guide describes methods that the NRC staff considers acceptable for use in the seismic qualification of electrical and active mechanical equipment and the functional qualification of active mechanical equipment for nuclear power plants.

This proposed guide was revised to endorse, with exceptions and

clarifications the following industry consensus standards: (1) Institute of Electrical and Electronics Engineers (IEEE) Standard (Std) 344–2013, "IEEE Standard for Seismic Qualification of Equipment for Nuclear Power Generating Stations," (2) IEEE Std C37.98–2013, "Standard Qualification Testing of Protective Relays and Auxiliaries for Nuclear Facilities," and (3) American Society of Mechanical Engineers (ASME) QME–1–2017, "Qualification of Active Mechanical Equipment Used in Nuclear Facilities."

III. Backfitting and Issue Finality

As discussed in the "Implementation" section of DG–1328, the NRC has no current intention to impose this draft regulatory guide on holders of current operating licenses or combined licenses. Accordingly, the issuance of this draft regulatory guide, if finalized, would not constitute "backfitting" as defined in Title 10 of the *Code of Federal Regulations* (10 CFR) 50.109(a)(1) of the Backfit Rule or be otherwise inconsistent with the applicable issue finality provisions in 10 CFR part 52.

This draft regulatory guide may be applied to applications for operating licenses and combined licenses docketed by the NRC as of the date of issuance of the final regulatory guide, as well as future applications for operating licenses and combined licenses submitted after the issuance of the regulatory guide. Such action would not constitute backfitting as defined in 10 CFR 50.109(a)(1) or be otherwise inconsistent with the applicable issue finality provision in 10 CFR part 52, inasmuch as such applicants or potential applicants are not within the scope of entities protected by the Backfit Rule or the relevant issue finality provisions in Part 52.

Dated at Rockville, Maryland, this 21st day of February, 2019.

For the Nuclear Regulatory Commission.

Thomas H. Boyce,

Chief, Regulatory Guidance and Generic Issues Branch, Division of Engineering, Office of Nuclear Regulatory Research.
