

September 15, 2018. FAA Order 7400.11C is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11C lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### The Proposal

The FAA is considering an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 to amend Class D and Class E airspace extending upward from 700 feet above the surface by recognizing the airport's name change to Brooksville-Tampa Bay Regional Airport, (formerly Hernando County Airport), and updating the geographic coordinates of the airport to be in concert with the FAA's aeronautical database. Also, Class E surface airspace would be removed, providing the controlled airspace required to support the new RNAV (GPS) standard instrument approach procedures for IFR operations at this airport. Additionally, an editorial change would be made replacing the outdated term Airport/Facility Directory with the term Chart Supplement in the associated Class D airspace legal description of this airport.

Class D and E airspace designations are published in Paragraphs 5000, 6002, and 6005, respectively of FAA Order 7400.11C, dated August 13, 2018, and effective September 15, 2018, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

### Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Environmental Review

This proposal would be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
