

III. Discussion and Commission Findings

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act,²² and the rules and regulations thereunder applicable to a national securities exchange.²³ In particular, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,²⁴ which requires, among other things, that the rules of a national securities exchange be designed to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest, and that the rules are not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Commission believes that Complex Reserve Orders could provide market participants with greater flexibility and control over the trading of their complex orders and could allow them to provide additional liquidity to the market. The Commission notes that C2 currently offers Reserve Order functionality for simple orders.²⁵ Under the proposal, displayed complex orders resting on the COB will have priority over the non-displayed portions of Complex Reserve Orders resting on the COB.²⁶ As described above, the proposal further provides that complex orders will execute against displayed and non-displayed leg market interest before executing against complex order interest at the same price.²⁷ The Commission notes that complex orders on C2 currently execute against leg market interest (displayed first and then non-displayed) before executing against complex order interest.²⁸ While displayed interest ordinarily executes before non-displayed interest at the same price to encourage market participants to submit displayed interest, the Commission believes that executing non-displayed leg market interest before complex interest at the same price should facilitate interaction between the single leg and complex

that does not execute pursuant to C2 Rule 6.13(d) or (e) after Legging will rest in the COB in accordance with the Complex Reserve Order instruction. See proposed C2 Rule 6.13(g)(5).

²² 15 U.S.C. 78f.

²³ In approving this proposed rule change, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

²⁴ 15 U.S.C. 78f(b)(5).

²⁵ See note 6, *supra*.

²⁶ See proposed C2 Rule 6.13(h)(4).

²⁷ See proposed C2 Rules 6.13(d)(5)(A)(i) and (e)(1) and notes 19–21, *supra*, and accompanying text.

²⁸ See C2 Rules 6.13(d)(5)(A) and (e).

markets and provide all single leg interest at a given price, displayed and non-displayed, with an opportunity to participate in executions with complex orders.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²⁹ that the proposed rule change (SR-C2-2018-022) is approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³⁰
