2018 Farm Bill Implementation Listening Session on Hemp

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice.

SUMMARY: In preparing to implement the Agriculture Improvement Act of 2018 (commonly referred to as the 2018 Farm Bill), the Agricultural Marketing Service (AMS) will host a listening session for initial public input about a new program to regulate hemp production. The listening session will provide interested parties with an opportunity to assist the Agency's future rulemaking efforts by sharing their views on how the United States Department of Agriculture (USDA) can partner with agriculture agencies representing states, territories, and Indian tribes to implement a nationwide program for overseeing the production of industrial hemp.

DATES: *Listening session:* The listening session will be on March 13, 2019, and will begin at 12:00 p.m. and conclude by 3:00 p.m.

Registration: You must register by March 11, 2019, to speak during the listening session and to provide oral comments during the listening session. Register in advance for this webinar: https://zoom.us/webinar/register/WN_L2G9K7cXTkayQ2O1_0AP0g. After registering, you will receive a confirmation email containing information about joining the webinar.

Comments: For those presenting comments at the online listening session, a written copy of your comments is due by March 11, 2019. You may use farmbill.hemp@usda.gov to submit your written comments via email. AMS will make the agenda for

the session available on the website by March 11, 2019.

FOR FURTHER INFORMATION CONTACT:

Andrew Hatch; phone: (202) 720–6862 or email: andrew.hatch@usda.gov.

Persons with disabilities who require alternative means for communication (Braille, large print, audio tape, etc.) should contact the USDA Target Center at (202) 720–2600 (voice and TDD).

SUPPLEMENTARY INFORMATION: On December 20, 2018, the 2018 Farm Bill (Pub. L. 115–334) was signed into law (see <https://www.congress.gov/bill/115th-congress/house-bill/2/text>). The Secretary of Agriculture and the respective USDA agencies, including AMS, are working to implement the provisions of the 2018 Farm Bill as expeditiously as possible to meet the needs of producers and other stakeholders. To allow for public input and ensure transparency, it is important to hear from stakeholders regarding their priorities, concerns, and requests.

The purpose of the listening session is for AMS to hear from the public; this is not a discussion with AMS officials or a question-and-answer session. The purpose is for AMS to receive public input that the agency can factor into discretionary decisions that need to be made to implement the specific provision of the 2018 Farm Bill.

The listening session will begin with brief opening remarks from AMS. Individual speakers providing oral comments will be limited to 3–5 minutes each, depending on the number of people who register to speak. As noted above, we request that speakers providing oral comments also submit a written copy of their comments prior to the session. All stakeholders and interested members of the public are welcome to register to provide oral comments.

Instructions for Participating in the Listening Session: Space for participation during the online listening session is limited to the first 1,000 registrants. All persons wishing to participate must submit their comment via email to farmbill.hemp@usda.gov by March 11, 2019. In addition to your comment, please include the following in your submission:

- First and last name
- Organization
- Title
- Address (City and State)
- Email address

- Phone number

If you require special accommodations, such as a sign language interpreter, use the contact information above. The listening session location is accessible to persons with disabilities.

Dated: February 28, 2019.

SUPPLEMENTARY INFORMATION:

Title: Importation of Fresh Andean Blackberry and Raspberry Fruit From Ecuador Into the Continental United States.

OMB Control Number: 0579-0435.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not known to be widely distributed throughout the United States.

The regulations in "Subpart L-Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-12, referred to as the regulations) prohibit or restrict the importation of fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination of plant pests that are new to or not widely distributed within the United States.

The Animal and Plant Health Inspection Service allows the importation of fresh Andean blackberries and raspberries into the United States from Ecuador. As a condition of entry, the fruit must be produced in accordance with a systems approach. This systems approach includes information activities such as production and packinghouse registration, an operational workplan, records of fruit fly trap placement and monitoring, recordkeeping, and a quality control program. The fruit must also be imported in commercial consignments and accompanied by a phytosanitary certificate issued by the national plant protection organization

(NPPO) of Ecuador stating that the consignment was produced and prepared for export in accordance with the requirements.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 1.3 hours per response.

Respondents: Shippers and producers of fresh Andean blackberries and raspberries and the NPPO of Ecuador.

Estimated annual number of respondents: 28.

Estimated annual number of responses per respondent: 5.75.

Estimated annual number of responses: 161.

Estimated total annual burden on respondents: 209 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 27th day of February 2019.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
