If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. Discretionary financial assistance proposals continue to be collected using *Grants.gov* but are imported into PAMS for use by the program offices. Under the existing information collection, an external interface in PAMS allows two other types of proposal submission: DOE National Laboratories are able to submit proposals for technical work authorizations directly into PAMS, while other Federal Agencies will be able to submit Proposals for interagency awards directly into PAMS. External users from all institution types are able to submit Solicitation Letters of Intent and Pre-proposals directly into PAMS. All applicants, whether they submitted through *Grants.gov* or PAMS, are able to register with PAMS to view the proposals that were submitted. They also are able to maintain a minimal amount of information in their personal profile. The existing collection automates and streamlines the submission, tracking, and correspondence portions of financial award pre-review processes.

The information collected is used by DOE to select applicants and projects for financial awards; (5) *Annual Estimated Number of Respondents:* 20,600; (6) *Annual Estimated Number of Total Responses:* 20,600; (7) *Annual Estimated Number of Burden Hours:* 30,150 (8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* \$149,000.

Statutory Authority: Section 641 of the Department of Energy Organization Act, codified at 42 U.S.C. 7251.

Signed in Washington, DC on January 31, 2019.

Vasilios Kountouris,

Director, Office of Information Technology and Services, Office of Science.
