Consultation Under Section 106 of the National Historic Preservation Act

In accordance with the Advisory Council on Historic Preservation's implementing regulations for section 106 of the National Historic Preservation Act, the Commission is using this notice to initiate consultation with the applicable State Historic Preservation Office (SHPO), and to solicit their views and those of other government agencies, interested Indian tribes, and the public on the project's potential effects on historic properties.⁴ The EA for this project will document findings on the impacts on historic properties and summarize the status of consultations under section 106.

Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project. Commission staff will update the environmental mailing list as the analysis proceeds to ensure that Commission notices related to this environmental review are sent to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project.

If the Commission issues the EA for an allotted public comment period, a *Notice of Availability* of the EA will be sent to the environmental mailing list and will provide instructions to access the electronic document on the FERC's website (www.ferc.gov). If you need to make changes to your name/address, or if you would like to remove your name from the mailing list, please return the attached Mailing List Update Form (appendix 2).

⁴ The Advisory Council on Historic Preservation's regulations are at Title 36, Code of Federal Regulations, Part 800. Those regulations define historic properties as any prehistoric or historic district, site, building, structure, or object included in or eligible for inclusion in the National Register of Historic Places.

[Project No. 2413-125]

Georgia Power Company; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed an application submitted by Georgia Power Company (licensee) to allow Greenbriar Sand Company, in Greene County, Georgia, the use of Wallace Dam Hydroelectric (FERC No. 2413) project lands and waters to conduct hydraulic sand mining. The project is located at about river mile 173 on the Oconee River in the Altamaha River Basin in Putnam, Morgan, Oconee, Oglethorpe, Greene and Hancock counties, Georgia. The proposed sand mine would be operated by Greenbriar Sand Company and sited in Greene County. The project occupies federal land administered by the U.S. Forest Service, but the proposed sand mine will not operate on Forest Service land.

An Environmental Assessment (EA) has been prepared as part of

Commission staff's review of the proposal. In the application, Greenbriar Sand anticipates removing 1,336 acre feet of sand by dredging at an average depth of four feet within 334 acres of the project reservoir, over the life of the operation. The dredge would pump sand to a 14 acre processing area outside of the project area. This EA contains Commission staff's analysis of the probable environmental impacts of the proposed action and concludes that approval of the proposal would not constitute a major federal action significantly affecting the quality of the human environment.

The EA is available for electronic review and reproduction at the Commission's Public Reference Room, located at 888 First Street NE, Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's website at <http://www.ferc.gov> using the eLibrary link. Enter the docket number (P-2413) in the docket number field to access the document. [Docket Nos. CP17-494-000, CP17-495-000]

Pacific Connector Gas Pipeline LP; Jordan Cove Energy Project L.P.; Notice of Revised Schedule for the Environmental Review and the Final Order for the Jordan Cove Energy Project

This notice identifies the Federal Energy Regulatory Commission (Commission) staff's revised schedule for the completion of the environmental impact statement (EIS) for the Jordan Cove Energy Project. The first notice of schedule, issued on August 31, 2018, identified August 30, 2019 as the final EIS issuance date. The previous notice states, however, that the forecasted schedule assumes that the cooperating agencies will provide input on their areas of responsibility on a timely basis. Due to the funding lapse at certain

federal agencies between December 22, 2018 and January 25, 2019, an extension is required for the cooperating agencies to complete their respective input. Staff has revised the schedule for issuance of the final EIS, based on an issuance of the draft EIS in March 2019.

Schedule for Environmental Review

Issuance of Notice of Availability of the final EIS—October 11, 2019
90-day Federal Authorization Decision Deadline—January 9, 2020

In an additional notice issued on August 31, 2018, the Commission identified November 29, 2019 as the anticipated final order issuance for the Jordon Cove Energy Project. Based on the revised final EIS schedule, the Commission currently anticipates issuing a final order for the project no later than:

Issuance of Final Order—January 9, 2020

If a schedule change becomes necessary, an additional notice will be provided so that the relevant agencies are kept informed of the project's progress.

Additional Information

In order to receive notification of the issuance of the EIS and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP17-494 and CP17-495), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1223]

Information Collection Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before April 5, 2019. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should
