

outlines solicitation-specific aspects of the project (such as the proposed technology innovation and project objectives with associated level of technical risk). In the past, this Project Pitch (previously referred to as the Executive Summary) was an optional submission via email as an attached two to three-page (maximum) document and was often in varying formats or missing some parts of the required document elements, which in turn caused delays or additional corrections on behalf of the proposer. The NSF SBIR/STTR Phase I Project Pitch form captures the same requested information, as outlined in the NSF SBIR/STTR Phase I Program solicitation, but all within one secure, web-based form. In specific, the form collects submitting proposer company and team information; the proposed technology innovation; the technical objectives and challenges; and the market opportunity. The form also allows the proposer to choose (from a drop-down menu) the most relevant NSF SBIR/STTR Phase I technical topic area, ensuring that the submitted Project Pitch goes to the most appropriate Program Director.

Respondents: Small businesses who submit proposals to NSF's SBIR/STTR Phase I Program.

Estimated Number of Annual Respondents: 2000.

Burden on the Public: 2 hours (per response) for an annual total of 4000 hours.

Dated: February 28, 2019.
